## **NUCLEAR REGULATORY COMMISSION**

**[Docket Nos. 030-05980, 030-05982]  
[License Nos. 37-00030-02, 37-00030-08,  
EA-04-148]**

### **In the Matter of Safety Light Corporation, Bloomsburg, PA; Order Suspending License (Effective Immediately)**

Safety Light Corporation (the Licensee or SLC) is the holder of two Byproduct Material Licenses issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR part 30 for the facility at 4150-A Old Berwick Road near Bloomsburg, Pennsylvania. License No. 37-00030-02 authorizes the Licensee to characterize and decommission its contaminated facilities, equipment, and land. License No. 37-00030-08 authorizes, among other things, the Licensee to manufacture self-luminous signs and foils using tritium. The licenses were last renewed on December 28, 1999, and are due to expire on December 31, 2004.

On December 28, 1999, License Nos. 37-00030-02 and 37-00030-08 were renewed. As part of these renewals, License Conditions were included that exempted the Licensee from certain of the Commission's financial assurance requirements and required the Licensee to develop plans which would address the License Termination Rule (10 CFR part 20, subpart E). This exemption was granted in response to the Licensee's request to the Commission to exempt the Licensee from the financial assurance decommissioning requirements set forth in 10 CFR 30.32 and 10 CFR 30.35, based on the lack of sufficient funds available at the time to assure that adequate financial ability existed to decommission the facility. In lieu of complying with 10 CFR 30.35, the Licensee committed to (1) develop a schedule and plan, for NRC review and approval, for additional site characterization and to develop revised cost estimates including strategies for site decommissioning that would comply with the criteria specified in the license termination rule, 10 CFR 30.36, and (2) contribute specified monthly payments (\$7,000 per month in 2000; \$8,000 per month in 2001 and 2002; and \$9,000 per month in 2003 and 2004) to a decommissioning trust fund over the life of the license to support decommissioning activities. The NRC specifically approved an exemption, in Condition 16 of Amendment No. 51 for License 37-00030-02 and Condition 20.A of Amendment No. 13 for License 37-00030-08, provided that the licensee make the specified monthly payments

into a decommissioning trust fund. The NRC granted the renewal of the two licenses based on the Licensee's continued ability to provide sufficient remediation funding and adequate security of radioactive materials at the facility.

On November 21, 2003, the NRC learned, during telephone conversations with Licensee management, that the Licensee had not made all payments into its decommissioning trust fund, as required by Condition 16 (License No. 37-00030-02) and Condition 20.A (License No. 37-00030-08). The Licensee failed to make several prescribed deposits into the decommissioning trust fund over the period from May 2001 to December 2002. The Licensee made all overdue payments by February 2003 to address the deficit that existed at the end of 2002. However, starting in January 2003, the Licensee again failed to make the total prescribed payments into the decommissioning trust fund, resulting in a deficit of \$81,000 by the end of November 2003.

Upon learning of the foregoing, on December 19, 2003, the NRC issued a Demand for Information to SLC which required the Licensee to submit to the NRC the following information:

1. Detailed schedule for making all overdue payments, with interest, to the decommissioning trust fund;
2. Reasons why the Licensee did not make the required payments, as scheduled, to the decommissioning trust fund;
  1. Reasons why the NRC should have confidence that the Licensee will, in the future, make the required monthly deposits to the decommissioning trust fund;
  2. Assurance from the Licensee, that, should it encounter any difficulty making required monthly deposits in the future, it will promptly notify the NRC that there will be a delay in making a specific deposit, and provide the reasons for the delay;
  3. Reasons why the NRC should have confidence that in the future, the Licensee will adhere to license conditions and applicable NRC requirements;
  4. Reasons why, in light of the Licensee's past failure to make all required payments to the trust fund, License Nos. 37-00030-02 and 37-00030-08 should not be modified, suspended, or revoked.

On January 16, 2004, the Licensee responded to the Demand for Information and indicated, in part, that the Licensee could not submit a detailed schedule for making overdue payments given the Licensee's inability to
