

set a cut-off date of February 18, 2005,³ for the input of transactions.⁴ While EMCC management expects that all trades submitted to it by February 15, 2005, will settle promptly, it is possible that some trades may not settle timely. Accordingly, EMCC is establishing February 23, 2005, as EMCC's final settlement date. This means that EMCC will exit from any trades that remain open as of February 23, 2005. Under revised Rule 3, Section 1 of EMCC's rules, EMCC will issue deliver and receive instructions to the original buyers and sellers for any trades that have not settled by February 23, 2005. The legal obligations of those parties will continue to be subject to EMCC's rules even though such trades will no longer settle pursuant to EMCC's rules. To the extent that EMCC discontinues processing before the end of February 2005, EMCC will prorate its members' February charges and will reflect any proration on the members' final bill.

EMCC believes that the proposed rule change is consistent with the requirements of Section 17A of the Act⁵ and the rules and regulations thereunder because it will enable EMCC to process its final transactions in an orderly manner thereby promoting the prompt and accurate clearance and settlement of securities.

B. Self-Regulatory Organization's Statement on Burden on Competition

EMCC does not believe that the proposed rule change will have an impact on or impose a burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments relating to the proposed rule change have been solicited or received by EMCC. EMCC will notify the Commission of any written comments it receives.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Commission finds that EMCC's proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder and

particularly with the requirements of Section 17A(b)(3)(F)⁶ of the Act. Section 17A(b)(3)(F) requires that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions. The proposed rule change will enable EMCC to process its final transactions in an orderly and transparent manner thereby promoting the prompt and accurate clearance and settlement of securities.

EMCC has requested that the Commission find good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing. The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing because such approval will afford EMCC sufficient time to give its members notice of its decision to cease operations and to wind down its clearing agency operations in an orderly fashion.

IV. Solicitation of Comments

as constituting a stated policy, practice, or interpretation with respect to the meaning, administration, or enforcement of an existing rule of the MSRB under Section 19(b)(3)(A)(i) of the Act³ and Rule 19b-4(f)(1) thereunder,⁴ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The MSRB is filing with the Commission an interpretive reminder notice regarding Rule G-17, on disclosure of material facts—disclosure of original issue discount bonds. The text of the notice follows, with *italics* indicating new language:

* * * * *

Reminder Notice Regarding Rule G-17, on Disclosure of Material Facts—Disclosure of Original Issue Discount Bonds

The MSRB is publishing this notice to remind dealers of their affirmative disclosure obligations when effecting transactions with customers in original issue discount bonds. An original issue discount bond, or O.I.D. bond, is a bond that was sold at the time of issue at a price that included an original issue discount. The original issue discount is the amount by which the par value of the bond exceeded its public offering price at the time of its original issuance. The original issue discount is amortized over the life of the security and, on a municipal security, is generally treated as tax-exempt interest. When the investor sells the security before maturity, any profit realized on such sale is calculated (for tax purposes) on the adjusted book value, which is calculated for each year the security is outstanding by adding the accretion value to the original offering price. The amount of the accretion value (and the existence and total amount of original issue discount) is determined in accordance with the provisions of the Internal Revenue Code and the rules and regulations of the Internal Revenue Service.¹

Rule G-17, the MSRB's fair dealing rule, encompasses two general principles. First, the rule imposes a duty on dealers not to engage in deceptive, dishonest, or unfair practices. This first

prong of Rule G-17 is essentially an antifraud prohibition. In addition to the basic antifraud provisions in the rule, the rule imposes a duty to deal fairly with all persons. As part of a dealer's obligation to deal fairly, the MSRB has interpreted the rule to create affirmative disclosure obligations for dealers. The MSRB has stated that the dealer's affirmative disclosure obligations require that a dealer disclose, at or before the sale of municipal securities to a customer, all material facts concerning the transaction, including a complete description of the security.² These obligations apply even when a dealer is effecting non-recommended secondary market transactions.

In the context of the sale to customers of an original issue discount security, the MSRB's customer confirmation rule, Rule G-15(a), provides that information regarding the status of bonds as original issue discount securities must be included on customer confirmations. Specifically, Rule G-15(a)(i)(C)(4)(c) provides that, "If the securities pay periodic interest and are sold by the underwriter as original issue discount securities, a designation that they are "original issue discount" securities and a statement of the initial public offering price of the securities, expressed as a dollar price" must be included on the customer's confirmation.

The MSRB previously has alerted dealers of their obligation to make original issue discount disclosures to customers and has stated that, "The Board believes that the fact that a security bears an original issue discount is material information (since it may affect the tax treatment of the security); therefore, this fact should be disclosed to a customer prior to or at the time of trade."³ The MSRB is publishing this notice to remind dealers of their disclosure obligations under Rule G-17 because it remains concerned that, absent adequate disclosure of a security's original issue discount status, an investor might not be aware that all or a portion of the component of his or her investment return represented by accretion of the discount is tax-exempt, and therefore might sell the securities at an inappropriately low price (i.e., at a price not reflecting the tax-exempt portion of the discount) or pay capital gains tax on the accreted discount amount. Without appropriate

disclosure, an investor also might not be aware of how his or her transaction price compares to the initial public offering price of the security. Appropriate disclosure of a security's original issue discount feature should assist customers in computing the market discount or premium on their transaction.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the MSRB included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposal. The text of these statements may be examined at the places specified in Item IV below. The MSRB has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The MSRB is publishing the proposed rule change to remind dealers of their affirmative disclosure obligations when effecting transactions with customers in original issue discount bonds.

The MSRB previously has alerted dealers of their obligation to make original issue discount disclosures to customers and has stated that, "The Board believes that the fact that a security bears an original issue discount is material information (since it may affect the tax treatment of the security); therefore, this fact should be disclosed to a customer prior to or at the time of trade."⁵ The MSRB is publishing this notice to remind dealers of their disclosure obligations under Rule G-17 because it remains concerned that, absent adequate disclosure of a security's original issue discount status, an investor might not be aware that all or a portion of the component of his or her investment return represented by accretion of the discount is tax-exempt, and therefore might sell the securities at an inappropriately low price (i.e., at a price not reflecting the tax-exempt portion of the discount) or pay capital gains tax on the accreted discount amount. Without appropriate disclosure, an investor also might not be

aware of how his or her transaction price compares to the initial public offering price of the security.

Appropriate disclosure of a security's original issue discount feature should assist customers in computing the market discount or premium on their transaction.

2. Statutory Basis

The MSRB has adopted the proposed rule change pursuant to Section 15B(b)(2)(C) of the Act,⁶ which authorizes the MSRB to adopt rules that shall:

be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in municipal securities, to remove impediments to and perfect the mechanism of a free and open market in municipal securities, and, in general, to protect investors and the public interest.

The MSRB has always interpreted its Rule G-17, on fair dealing, to encompass two general principles. First, the rule imposes a duty on dealers not to engage in deceptive, dishonest, or unfair practices. In addition to the basic antifraud provisions in the rule, the rule imposes a duty to deal fairly with all persons. As part of a dealer's obligation to deal fairly, the MSRB has interpreted the rule to create affirmative disclosure obligations for dealers. The proposed rule change will further the purposes of Section 15B(b)(2)(C) by reminding dealers of their obligations to deal fairly with customers and affirmatively disclose, at or before the sale of municipal securities to a customer, all material facts concerning the transaction including a security's original issue discount feature.

B. Self-Regulatory Organization's Statement on Burden on Competition

The MSRB does not believe that the proposed rule change will impose any burden on competition among dealers not necessary or appropriate in furtherance of the purposes of the Act because it applies equally to all dealers in municipal securities.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The MSRB has designated this proposed rule change as constituting a stated policy, practice or interpretation with respect to the meaning, administration or enforcement of an existing MSRB rule under Section 19(b)(3)(A)(i) of the Act,⁷ and Rule 19b-4(f)(1) thereunder,⁸ which renders the proposed rule change effective upon filing with the Commission.

At any time within 60 days of this filing, the Commission may summarily abrogate this proposal if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.⁹
