DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

January 19, 2005.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *Pamela_Beverly_OIRA_Submission@OMB.EOP.GOV* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: WIC Farmers' Market Nutrition Program (FMNP) Forms and Regulations.

OMB Control Number: 0584-0447.

Summary of Collection: The Women, Infants, and Children (WIC) Farmers' Market Nutrition Program (FMNP) is authorized by Public Law 102-314, enacted on July 2, 1992. The purpose of the FMNP is to provide resources to women, infants, and children who are nutritionally at risk, in the form of fresh, nutritious, unprepared foods (such as fruits and vegetables) from farmers' markets, and roadside stands at the option of the State; to expand the awareness and use of farmers' markets; and, to increase sales at such markets. The Food and Nutrition Service (FNS) will collect information from each state that receives a grant under the FMNP program in conjunction with the preparation of annual financial and recipient reports.

Need and Use of the Information: FNS will collect information from the state agency administering the FMNP to develop an annual financial report on the number and type of recipients served by both Federal and non-Federal benefits under the program. The information is necessary for reporting to Congress in accordance with the Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments and for program planning purposes.

Description of Respondents: State, Local, or Tribal Government; Individuals or household; Business or other for-profit.

Number of Respondents: 8,582.

Frequency of Responses: Recordkeeping; Reporting: Annually.

Total Burden Hours: 13,237.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Forest Service

Commercial Pack Stock Use Authorizations for the Ansel Adams and John Muir Wildernesses; Inyo and Sierra National Forests; Inyo, Fresno, Madera, and Mono Counties, CA

AGENCY: Forest Service, USDA.

ACTION: Revised notice of intent to prepare an environmental impact statement.

SUMMARY: The USDA Forest Service published a notice of intent to prepare an environmental impact statement (EIS) for the Commercial Pack Stock Use

Authorizations for the Ansel Adams and John Muir Wildernesses Project in the **Federal Register** on June 15, 2004 (Volume 69, Number 114, pages 33346-33348). A revised notice of intent is being issued for several reasons. A Trail Management Plan for the Ansel Adams and John Muir Wildernesses, previously under analysis in a separate environmental document, has been combined into this project. The Dinkey Lakes portion of the Trail Management Plan will be conducted in a future analysis. To incorporate the Trail Management Plan, the Purpose and Need and Proposed Action for the project have been revised only to reflect the combination of the two proposals into one. This is described in more detail below.

In addition, the decision to be made reflects a change that this proposal will only amend the Ansel Adams and John Muir portions of the 2001 Wilderness Management Plan. No commercial pack stock use will be authorized under this proposal. Finally, the name of the project has been changed to better describe the proposed action and is now "Trail and Commercial Pack Stock Management in the Ansel Adams and John Muir Wildernesses."

DATES: Comments concerning the scope of the analysis and revised notice of intent should be received within 30 days following the publication of this notice in **Federal Register**. Comments previously submitted for the scoping of the proposed action as described in the June 15, 2004, **Federal Register** are part of the project record and will be considered in the Draft EIS. There is no need for these comments, or comments made to the Trail Management Plan to be resubmitted as the proposed actions have not changed, just combined into one proposal.

A draft environmental impact statement is expected to be filed with the Environmental Protection Agency (EPA) and available for public review in April 2005. At that time the EPA will publish a Notice of Availability in the **Federal Register**. The comment period on the draft EIS will be 45 days from the date the EPA published the Notice of Availability. The final EIS is scheduled to be completed in December 2005.

ADDRESSES: Send written comments to Forest Supervisor, Attention: Wilderness Planning, Inyo National Forest, 351 Pacu Lane, Suite 200, Bishop, CA 93514. Comments may be sent electronically to comments-pacificsouthwest-inyo@fs.fed.us.

FOR FURTHER INFORMATION CONTACT: Mary Beth Hennessy, Wilderness Specialist, Inyo National Forest, 351

Pacu Lane, Suite 200, Bishop, CA 93514, (760) 873-2448.

SUPPLEMENTARY INFORMATION: To better reflect the purpose and need for the project, the name of the project has been changed to "Trail and Commercial Pack Stock Management in the Ansel Adams and John Muir Wildernesses." Publication of the Draft and Final Environmental Impact Statements will be under this name.

Comments previously submitted for the scoping of the proposed action for this project as described in the June 15, 2004, **Federal Register** are part of the project record and will be considered in the Draft EIS. Comments previously submitted for the Trail Management Plan Environmental Assessment Proposed Action are also a part of the record and will be considered in the Draft EIS. There is not a need for these comments to be resubmitted.

Nature of Decision to Be Made: The decision to be made is whether or not to continue commercial pack stock operations in the John Muir and Ansel Adams Wildernesses and, if so, to determine the amount, type, and locations where these activities would occur. The decision will also establish a Trail Management Plan for both wildernesses which determines the trails that will be maintained on the Forests' inventories and how they will be managed. This Trail Management Plan was originally under analysis in a separate proposal, but due to public comments and the apparent connected nature of the two proposals, the trail plan and commercial pack stock proposals were combined into a single analysis. The incorporation of the Trail Plan into the overall Wilderness planning effort will better disclose the cumulative effects of commercial pack stock use in the two wildernesses.

Purpose and Need for Action: These actions are needed for several reasons. While the Wilderness Act does contain provisions for commercial activities in wilderness areas, these activities are permitted "to the extent necessary for activities which are proper for realizing the recreational or other wilderness purposes of the areas." There is a need, therefore, to clearly articulate the extent necessary, including the locations and the amount and type of use, that commercial pack stock is necessary in the Ansel Adams and John Muir Wildernesses. There is a need for limits on commercial pack stock operations in order to maintain desired resource and experiential conditions identified in the 2001 Wilderness Plan and Record of Decision. There is also a need for a trail management plan that establishes a
