

surface of the earth is needed to contain aircraft executing instrument approach procedures to Lawrence Municipal Airport. Weather observations will be provided by an Automated Surface Observing System (ASOS) and communications will be direct with Kansas City Air Route Traffic Control Center. The area will be depicted on appropriate aeronautical charts.

Class E airspace areas designated as surface areas are published in Paragraph 6002 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rule is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient user of airspace. This regulation is within the scope of that authority since it contains aircraft executing instrument approach procedures to Lawrence Municipal Airport.

**FOR FURTHER INFORMATION CONTACT:** Brenda Mumper, Air Traffic Division, Airspace Branch, ACE–520A, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329–2524.

#### SUPPLEMENTARY INFORMATION:

#### History

**Federal Register** document 04–24259, published on Friday, October 29, 2004 (69 FR 63056), modified the Class E airspace area extending upward from 700 feet above the surface at Sedalia, MO. The modification expanded the airspace area for diverse departures and modified or deleted extensions to the airspace area to provide controlled airspace of appropriate dimensions for aircraft executing instrument approach procedures to Sedalia Memorial Airport. The Sedalia Memorial Airport airport reference point (ARP) is used in the airspace legal description. However, publication of a revised Sedalia Memorial Airport ARP in the National Flight Data Digest on January 6, 2005, requires a further revision to the Sedalia, MO Class E airspace area.

Accordingly, pursuant to the authority delegated to me, the legal description of the Class E airspace area extending upward from 700 feet above the surface at Sedalia, MO, as published in the **Federal Register** on Friday, October 29, 2004, (69 FR 63056) (FR Doc. 04–24259) is corrected as follows:

#### § 71.1 [Corrected]

■ On page 63057, Column 3, fifth paragraph, third line, change "(Lat. 38°42'25"; N., long. 93°10'34" W.)" to read: "(Lat. 38°42'27"; N., long. 93°10'33" W.)"
