#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—Foundation for the Accreditation of Cellular Therapy

Notice is hereby given that, on September 15, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Foundation for the Accreditation of Cellular Therapy ("FACT") has filed written notification simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: Foundation for the Accreditation of Cellular Therapy, Omaha, NE. The nature and scope of FACT's standards development activities are: development of certain standards for medical facilities engaged in blood, bone marrow and cord blood transplantation in then treatment of human disease. FACT's standards apply to all sources of hematopoietic progenitor cells and all phases of collection, processing, and administration of these cells. The standards encompass, but are not limited to, cells isolated from bone marrow or peripheral blood and any variety of manipulations including removal or enrichment of various cell populations, expansion of hematopoietic cell populations, cryopreservation, and infusion. The Standards fall into the following categories: (1) Clinical Program Standards; (2) Hematopoietic Progenitor Cell Collection Standards; (3) Donor and Cell Collection Standards; and (4) Hematopoietic Progenitor Cell Processing Standards. FACT's standards have been made available to health institutions, health professionals,

clinical laboratories, health facilities, and other interested members of the scientific and medical community and public. FACT's voluntary standards are designed to provide minimum quality and safety guidelines for facilities and professionals performing hematopoietic progenitor cell therapy or providing related services. FACT has established a voluntary accreditation program for medical facilities that seek FACT certification of compliance with these standards. The goal of FACT's accreditation program is to ensure that both the laboratory and clinical aspects of hematopoietic cell transplantation are conducted in accordance with the Fact standards.

FACT has also developed cord blood bank standards. These standards were developed by consensus with representatives of NETCORD, individual members of ISCT, and other professionals active in cord blood banking. The cord blood bank standards fall into the following categories: (1) Cord Blood Bank Standards; (2) Cord Blood Donor and Collection Standards; (3) Cord Blood Processing Standards; and (4) Selection, Release and Shipping of Cord Blood Units. Such standards are designed to provide minimum guidelines for facilities and individuals performing cord blood collection, processing, testing, banking, selection and release or providing support services for such procedures.

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—Hardwood Plywood & Veneer Association

Notice is hereby given that, on September 20, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Hardwood Plywood & Veneer Association ("HPVA") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting

the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: Hardwood Plywood & Veneer Association, Reston, VA. The nature and scope of HPVA's standards development activities are: establishment of the American National Standard for Hardwood and Decorative Plywood, and the American National Standard for Engineered Wood Flooring. The Standard for Hardwood and Decorative Plywood covers the principal types, face grades, back grades, inner ply grades and constructions of plywood made primarily with hardwood faces, formaldehyde emissions for hardwood plywood and certain reconstituted wood wall panels. Included are requirements for wood species and veneer grading; lumber, particle board, medium density fiberboard, and hardboard cores; bond line performance; panel construction; moisture content; and panel dimensions and tolerances. The standard provides producers, distributors, architects, contractors, builders and users with a common basis for understanding the characteristics of these products.

The Standard for Engineered Wood Flooring covers requirements for grading, moisture content, machining, bond line construction, formaldehyde emissions, and finish of engineered wood flooring. This standard is intended to provide producers, distributors, and users with a description of the characteristics and the basis for the manufacture and sale of these products.

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—IMS Global Learning Consortium, Inc.

Notice is hereby given that, on December 8, 2004, pursuant to section 6(a) of the national cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), the IMS Global Learning Consortium, Inc. has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership. The

notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, NHSU, London, United Kingdom has been added as a party to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and IMS Global Learning Consortium, Inc. intends to file additional written notification disclosing all changes in membership.

On April 7, 2000, IMS Global Learning Consortium, Inc. filed its original notification pursuant to section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to section 6(b) of the Act on September 13, 2000 (65 FR 55283).

The last notification was filed with the Department on September 21, 2004. A notice was published in the **Federal Register** pursuant to section 6(b) of the Act on November 29, 2004 (69 FR 69395).

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—International Association of Plumbing and Mechanical Officials

Notice is hereby given that, on December 10, 2004, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), International Association of Plumbing and Mechanical Officials ("IAPMO") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing additions or changes to its standards development activities. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, the nature and scope of IAPMO's standards development activities are: to provide for the erection, installation, alternation, addition, repair, relocation, replacement, maintenance, or use of any solar, swimming pool, spa or hot tub system.

On September 14, 2004, IAPMO filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to section 6(b) of the Act on November 29, 2004 (69 FR 69396).

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—International Electrotechnical Commission Technical Committee 72

Notice is hereby given that, on September 17, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), International Electrotechnical Commission Technical Committee 72 ("IEC TC 72"), by its Secretariat, National Electrical Manufacturers Association ("NEMA"), has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: International Electrotechnical Commission Technical Committee 72, Rosslyn, VA. The nature and scope of IEC TC 72's standards development activities are: related to automatic electrical control devices used in household and some industrial products. IEC TC 72 currently maintains a series of IEC 60730 standards dealing with requirements for components used in different types of control devices including relays, valves, sensors, actuators, locks and the like. The
