

pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before March 7, 2005.

ADDRESSES: Submit your comments, referencing docket ID number OW-2003-0017, to (1) EPA online using EDOCKET (our preferred method), by e-mail to OW-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Water Docket, MC 4104T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Robert E. Smith, Office of Ground Water and Drinking Water, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-3895; fax number: (202) 564-3756; e-mail address: smith.robert-eu@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On October 25, 2004 (69 FR 62267), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA has addressed the comments received.

EPA has established a public docket for this ICR under Docket ID No. OW-2003-0017, which is available for public viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the

comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket.

Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Underground Injection Control Program (Renewal).

Abstract: The Underground Injection Control (UIC) Program under the Safe Drinking Water Act established a Federal and State regulatory system to protect underground sources of drinking water (USDWs) from contamination by injected fluids. Owners/operators of underground injection wells must obtain permits, conduct environmental monitoring, maintain records, and report results to EPA or the State UIC primacy agency. States must report to EPA on permittee compliance and related information. The mandatory information is reported using standardized forms, and the regulations are codified at 40 CFR parts 144 through 148. The data are used to ensure the protection of USDWs from UIC authorities.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the

existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are owners and operators of underground injection wells, state UIC primacy agencies, Puerto Rico, the U.S. Trust Territories, Indian Tribes, Alaska's Native Villages and, in some instances, U.S. EPA Regional offices.

Estimated Number of Respondents: 41,141.

Frequency of Response: Varies.

Estimated Total Annual Hour Burden: 1,334,054.

Estimated Total Annual Cost: \$135,355,000, includes \$89,415,000 annualized capital or O&M costs and \$45,941,000 annual labor costs.

Changes in the Estimates: There is an increase of 242,109 hours in the total estimated annual burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is related to an expected increase in activities under the 1999 Class V Rule associated with regulatory deadlines for closure of large-capacity cesspools and closure/permitting of motor vehicle waste disposal wells that will occur during the clearance period. Also, this ICR burden reflects several adjustments in assumptions, including inventories of all well classes and changes to the number of responses or unit burdens for certain activities, based on recent consultations.

Dated: January 25, 2005.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Combined Sewer Overflow Control Policy (Renewal), EPA ICR Number 1680.04, OMB Control Number 2040-0170

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.

3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on January 31, 2005.

DATES: Additional comments may be submitted on or before March 7, 2005.

ADDRESSES: Submit your comments, referencing docket ID number OW-2004-0017, to (1) EPA online using EDOCKET (our preferred method), by e-mail to OW-DOCKET@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Water Docket, Mail Code 4101T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Joel C. Wolf, Environmental Protection Agency, Water Permits Division, Mail Code 4203M, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 202-564-2228; fax number: 202-564-6392; e-mail address: wolf.joel@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On August 12, 2004 (69 *FR* 49895), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received one comment that did not address the renewal ICR in any way. No response was necessary.

EPA has established a public docket for this ICR under Docket ID No. OW-2004-0017, which is available for public viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 *FR* 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Combined Sewer Overflow Control Policy (Renewal).

Abstract: The information to be collected under this request is the information recommended in the CSO Control Policy that will be developed by municipalities with combined sewer systems that have combined sewer overflows (CSOs). Specifically, the information is the documentation that the municipalities have implemented the nine minimum controls specified in the CSO policy, the long-term control plan that the municipalities must develop and implement to achieve compliance with the requirements of the Clean Water Act and applicable state water quality standards (WQS), and compliance monitoring data for demonstrating compliance with applicable WQS and National Pollutant Discharge Elimination System (NPDES) permit conditions. The first two information submittals are one-time submittals; the last element will be submitted semi-annually as part of the municipalities' Discharge Monitoring Reports (DMRs). EPA will use this information to determine how well the CSO Control Policy is being implemented at the state and local level and to prepare the performance reports required under the Government Performance and Results Act (GPRA). The information to be collected under this information collection is necessary to determine the program's achievement of GPRA performance measures.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 515 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: municipalities with combined sewer systems.

Estimated Number of Respondents: 776.

Frequency of Response: One-time for selected items; semi-annually for others.

Estimated Total Annual Hour Burden: 400,542.

Estimated Total Annual Cost: \$14,715,366, which includes \$155,664 in Capital Expense, \$0 in O&M costs, and \$14,559,702 in Respondent Labor Costs.

Changes in the Estimates: There is a decrease of 179,502 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease reflects a decrease in the number of communities needing to come into compliance with the CSO Policy. Some CSO communities have already completed some of the requirements. Additionally, this change in the burden is the result of data and information collected from EPA Regions and conversations with EPA Regional and state CSO program staff during preparation of EPA's Report to Congress on Impacts and Control of CSOs and SSOs.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On September 14, 2004 (69 *FR* 55430) EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OECA-2004-0040, which is available for public viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center Docket is: (202) 566-1752. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. When in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 *FR* 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NSPS for Municipal Waste Combustors (40 CFR part 60, subparts Ea and Eb) (Renewal)

Abstract: The New Source Performance Standards (NSPS) for subparts Ea and Eb were proposed on December 20, 1980, and September 20, 1994 respectively, and promulgated on February 11, 1991 and December 19, 1995, respectively. Both of these standards apply to municipal waste combustors with unit capacities greater than 225 megagrams per day. Owners or operators of the affected facilities must make one-time-only notifications and reports and must keep records of all facilities subject to NSPS requirements. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. The pollutants of concern for subpart Ea are metals, municipal waste combustor (MWC) organics, MWC acid gases, and nitrogen oxides. In subpart Eb the additional pollutants of concern are cadmium (Cd), lead (Pb), and mercury (Hg). Subparts Ea and Eb require owners and operators with unit capacity above 225 megagrams per day to notify the agency of intent to construct and initiate operation of a new, modified or reconstructed MWC. The notification must contain supporting information regarding unit design capacity, the calculations used to determine capacity, and estimated startup dates.

Owners and operators must submit semiannual and annual compliance reports. In addition, facilities subject to subpart Eb are required to keep records of the weekly amount of carbon used for activated carbon injection and to calculate the estimated hourly carbon injection rate for hours of operation as a means of determining continuous compliance for Hg. Annual reports of excess emissions are required under subpart Ea, while semiannual reports of excess emissions are required under subpart Eb. These notifications, reports, and records are essential in determining compliance and are required, in general, of all sources subject to the standard.

Any owner or operator subject to subpart Ea will maintain a file of these measurements, and retain the file for at least two years. For those facilities subject to subpart Eb all records are required to be maintained at the source for a period of five years.

Notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the
