

5. Identification of the Manufacturers of All Other Basic Models

Variable refrigerant flow multi split air conditioner and heat pump systems are proposed in the United States by Mitsubishi Electric and Electronics USA Inc. and Samsung Electronics Company, Ltd. However, their application is almost exclusively for commercial or industrial uses and not for residential use. Our "Airstage", compact, economical and comfortable air-conditioning and heat pump systems, are developed especially for residential and commercial uses.

As far as we know, Samsung Electronics Company, Ltd might offer residential type.

6. Alternate Test Procedures

As we mentioned in (1) of item 3, two or three indoor units whose total capacity match capacity of outdoor unit may be used for testing, but will not entirely represent the true energy consumption characteristics. Thus, there are no alternative test procedures known to us that could evaluate these products in a representative manner.

Conclusion

We seek a waiver of current test procedures established in 10 CFR 430.23(m) Central Air Conditioners and 10 CFR 430.27 Appendix M to Subpart B Uniform Test Method for Measuring the Energy Consumption of Central Air Conditioners for residential uses and ARI 210/240 (1989) and ARI 210/240 (1994) for commercial uses, because the current test procedures evaluate the basic models in a manner so unrepresentative of their true energy consumption characteristics as to provided materially inaccurate comparative data and would like you to grant a waiver from existing test procedures until a representative test procedure is developed and approved by you.

We will work with stakeholders, U.S. Department of Energy, Air-Conditioning & Refrigeration Institute and others, through the process of developing test procedures suitable for products using variable refrigerant flow systems.

Cheyenne Plains Gas Pipeline Company, LLC; Notice of Proposed Changes in FERC Gas Tariff

January 27, 2005.

Take notice that on January 24, 2005, Cheyenne Plains Gas Pipeline Company, LLC (Cheyenne Plains) tendered for filing a revised firm Transportation Service Agreement with Oneok Energy Services Company, L.P. to become effective January 24, 2005.

Cheyenne Plains states that the revised FTSA updates a previously

approved negotiated rate agreement that applies to service on its pipeline system.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Credit Suisse First Boston Energy, LLC; Notice of Issuance of Order

January 27, 2005.

Credit Suisse First Boston Energy, LLC (CSFBE) filed an application for

market-based rate authority, with an accompanying tariff. The proposed tariff provides for wholesale sales of energy, capacity and ancillary services at market-based rates. CSFBE also requested waiver of various Commission regulations. In particular, CSFBE requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liability by CSFBE.

On January 25, 2005, the Commission granted the request for blanket approval under part 34, subject to the following:

Any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by CSFBE should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2004).

Notice is hereby given that the deadline for filing motions to intervene or protest, is February 24, 2005.

Absent a request to be heard in opposition by the deadline above, CSFBE is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of CSFBE, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of CSFBE's issuances of securities or assumptions of liability.
