[Docket No. CP05-51-000]

#### Ozark Gas Transmission, L.L.C.; Notice of Application

January 28, 2005.

Take notice that on January 19, 2005, Ozark Gas Transmission, L.L.C. (Ozark), 515 Central Park Drive, Oklahoma City, Oklahoma 73105 filed an application in Docket No. CP05-51-000 pursuant to section 7(b) of the Natural Gas Act (NGA), requesting that the Commission issue an Order authorizing Ozark to abandon certain of its certificated facilities located in Haskell, Muskogee and LeFlore Counties in the state of Oklahoma and in Cleburne, Faulkner, Franklin, Logan, Johnson, Sebastian and Pope Counties in the state of Arkansas (the Facilities) by transfer to Ozark Arkansas Gas Gathering, L.L.C. (OAGG). Ozark states that the Facilities consist of approximately 137 miles of 3-inch to 12-inch diameter lateral gathering lines, 12 compressor stations, and 134 well connects. Ozark further requests a Commission determination that the Facilities to be abandoned will be gathering facilities exempt from NGA jurisdiction upon their abandonment by transfer to OAGG, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-3676, or TTY, (202) 502-8659.

Any questions concerning this application should be directed to counsel for Ozark, James F. Bowe, Jr., Dewey Ballantine LLP, at (202) 429-1444 (phone), (202) 429-1579 (fax), or [jbowe@deweyballantine.com](mailto:jbowe@deweyballantine.com).

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents

filed by the applicant and by all other parties. Unless filing electronically, a party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

Persons who wish to comment only on the environmental review of this project, or in support of or in opposition to this project, should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the applicant. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.
