National Emission Standards for Hazardous Air Pollutants for Leather Finishing Operations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; amendments.

SUMMARY: On February 27, 2002, the EPA issued national emission standards for hazardous air pollutants (NESHAP) for leather finishing operations, which were issued under section 112 of the Clean Air Act (CAA). This action would amend the standards to clarify the frequency for categorizing leather product process types, modify the definition of "specialty leather," add a definition for "vacuum mulling," and add an alternative procedure for determining the actual monthly solvent loss from an affected source.

In the Rules and Regulations section of this **Federal Register**, we are taking direct final action on the proposed amendments because we view the amendments as noncontroversial and anticipate no adverse comments. We have explained our reasons for the amendments in the direct final rule. If we receive no significant adverse comments, we will take no further action on the proposed amendments. If we receive significant adverse comments, we will withdraw only those provisions on which we received significant adverse comments. We will publish a timely withdrawal in the **Federal Register** indicating which provisions will become effective and

which provisions are being withdrawn. If part or all of the direct final rule in the Rules and Regulations section of today's **Federal Register** is withdrawn, all comments pertaining to those provisions will be addressed in a subsequent final rule based on the proposed amendments. We will not institute a second comment period on the subsequent final action. Any parties interested in commenting must do so at this time.
