

rehearing but, on June 4, 2004, sought reconsideration of the letter, asking the Commission to vacate the letter on the ground that certification was not required. By order issued November 23, 2004, 109 FERC ¶ 61,210 (2004), the Commission denied reconsideration as to the need for certification but granted Augusta's request for an extension of time to obtain it.

On December 23, 2004, Augusta sought rehearing of the Commission's order. The order on reconsideration, which allowed the staff letter to remain effective, did not create a right to rehearing that had not been created by issuance of the staff letter itself. To the extent that Augusta was aggrieved by the staff letter, a request for rehearing of the letter would have been the appropriate remedy. As Augusta did not seek rehearing of the staff letter, a request for rehearing of the order on reconsideration is effectively an impermissibly late-filed request for rehearing of the letter. Accordingly, Augusta's December 23, 2004, request for rehearing in this proceeding does not lie and is dismissed.

[Docket No. CP05-59-000]

#### El Paso Natural Gas Company; Notice of Application for Abandonment

February 4, 2005.

Take notice that on January 26, 2005, El Paso Natural Gas Company (El Paso), filed an application in Docket No. CP05-59-000, pursuant to section 7(b) of the Natural Gas Act (NGA) and section 157.5, et seq., of the Commission's Regulations, for permission and approval to abandon, in place, the compressor facilities, with appurtenances, located in Luna County, New Mexico, all as more fully set forth

in the application which is on file with the Commission and open to public inspection. El Paso states that as a result of changes in the natural gas markets served by its interstate system in southwestern New Mexico and southeastern Arizona, El Paso's Compressor Station No. 4 has become functionally obsolete and is no longer required in natural gas service.

Any questions concerning this application may be directed to Robert T. Tomlinson, Director, Regulatory Affairs, El Paso Natural Gas Company, PO Box 1087, Colorado Springs, Colorado 80944, at (719) 520-3788 or fax (719) 520-4318.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive
