Section 64.2341(c) requires that a carrier shall make the contracts and records available, upon request, to the Commission, and to any directory publisher that requests those contracts and records for the purpose of publishing a directory. New section 64.2341(d) states that a carrier need not disclose to a directory publisher pursuant to paragraph (c) portions of requested contracts that are wholly unrelated to the rates, terms, or conditions under which the carrier provides subscriber list information to itself, an affiliate, or any entity that publishes directories on the carrier's behalf. Title: Federal-State Joint Board on Universal Service, Petitions for Designation as Eligible Telecommunications Carriers (ETCs), CC Docket No. 96-45.

Form No: N/A.

Type of Review: New collection.

Respondents: Business or other for-profit.

Number of Respondents: 22.

Estimated Time per Response: 2-3 hours.

Frequency of Response: One-time and annual reporting requirements.

Total Annual Burden: 176 hours.

Needs and Uses: Section 254(e) of the Communications Act of 1934, as amended, provides that "only an eligible telecommunications carrier (ETC) designated under section 214(e) shall be eligible to receive specific Federal universal service support." Pursuant to section 214(e)(1), a common carrier designated as an ETC must offer and advertise the services supported by

the federal universal service mechanisms throughout the designated service area. Section 214(e)(2) of the Act gives state commissions the primary responsibility for performing ETC designations. Section 214(e)(6), however, directs the Commission, upon request, to designate as an ETC "a common carrier providing telephone exchange service and exchange access that is not subject to the jurisdiction of a state commission." Under section 214(e)(6), the Commission, may with respect to an area served by a rural telephone company, and shall, in all other areas, designate more than one common carrier as an ETC for a designated service area, consistent with the public interest, convenience, and necessity, so long as the requesting carrier meets the requirements of section 214(e)(1). Before designating an additional ETC for an area served by a rural telephone company, the Commission must determine that the designation is in the public interest.

The Commission issued a Memorandum Opinion and Order, in CC Docket No. 96-45, FCC 03-338, which imposes three new information collection requirements. Specifically, they are: (1) Report on progress towards meeting infrastructure build-out plans; (2) report on the number of consumer complaints per 1,000 handsets; and (3) report on information detailing the number of unfulfilled requests for service from potential customers for a twelve month period.
