

Federal mandates (under the regulatory provisions of title II of the UMRA) for State, local, and tribal governments or the private sector. Thus, the rule is not subject to the requirements of section 202 and 205 of the UMRA.

Environmental Impact Statement

This document has been reviewed in accordance with 7 CFR part 1940, subpart G, "Environmental Program." The Agencies have determined that this final action does not constitute a major Federal action significantly affecting the quality of human environment, and in accordance with the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, an Environmental Impact Statement is not required.

Executive Order 13132, Federalism

The policies contained in this rule do not have any substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Nor does this rule impose substantial direct compliance costs on State and local governments. Therefore, consultation with the States is not required.

Background

In November 2003, the **Federal Register** published a Final Rule that implemented changes to the governmentwide nonprocurement debarment and suspension common rule (NCR) and the associated rule on drug-free workplace requirements. The NCR set forth the common policies and procedures that Federal Executive branch agencies must use in taking suspension or debarment actions. It also established procedures for participants and Federal agencies in entering covered transactions. Following the procedures set forth in the NCR will help ensure that the agency action complies with due process standards and provides the public with uniform procedures.

List of Subjects in 7 CFR Part 1944

Administrative practice and procedure, Grant programs, Housing and community development, Loan Programs, Migrant labor, Nonprofit organizations, Reporting requirements, Rural Housing.

■ For the reasons set forth in the summary, chapter XVIII, title 7, Code of Federal Regulations is amended as follows:

PART 1944—HOUSING

■ 1. The authority citation for part 3550 continues to read as follows:

Authority: 5 U.S.C. 301; 42 U.S.C. 1480.

Subpart B—Housing Application Packaging Grants

■ 2. Section 1944.74 is revised to read as follows:

§ 1944.74 Debarment or Suspension.

Certified packagers whose actions or acts warrant they not be allowed to participate in the program are to be investigated in accordance with agency procedures (available in any Rural Development office).

Dated: January 18, 2005.

Russell T. Davis,

Administrator, Rural Housing Service.

BILLING CODE 3410-XV-P

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4022 and 4044

Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation's regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans prescribe interest assumptions for valuing and paying benefits under terminating single-employer plans. This final rule amends the regulations to adopt interest assumptions for plans with valuation dates in March 2005. Interest assumptions are also published on the PBGC's Web site (<http://www.pbgc.gov>).

EFFECTIVE DATE: March 1, 2005.

FOR FURTHER INFORMATION CONTACT: Catherine B. Klion, Attorney, Legislative and Regulatory Department, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (TTY/TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: The PBGC's regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-

employer plans covered by title IV of the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) A set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine lump-sum amounts to be paid by the PBGC (found in Appendix B to part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology (found in Appendix C to part 4022).

Accordingly, this amendment (1) adds to Appendix B to part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during March 2005, (2) adds to Appendix B to part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during March 2005, and (3) adds to Appendix C to part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology for valuation dates during March 2005.

For valuation of benefits for allocation purposes, the interest assumptions that the PBGC will use (set forth in Appendix B to part 4044) will be 3.80 percent for the first 20 years following the valuation date and 4.75 percent thereafter. These interest assumptions represent a decrease (from those in effect for February 2005) of 0.20 percent for the first 20 years following the valuation date and are otherwise unchanged.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 2.75 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit's placement in pay status. These interest assumptions represent a decrease (from those in effect for February 2005) of 0.25 percent for the period during which a benefit is in pay status and are otherwise unchanged.

For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation and payment of benefits in plans with valuation dates during March 2005, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory

action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

BILLING CODE 7708-01-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[CGD01-05-007]

Drawbridge Operation Regulations: Fore River, ME

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the drawbridge operation regulations for the Casco Bay Bridge, mile 1.5, across the Fore River between Portland and South Portland, Maine. Under this temporary deviation, from February 28, 2005 through March 4, 2005, bridge openings between the hours of 6 a.m. and 6 p.m. will require a 24-hour advance notice. The bridge will open on signal at all other times. This temporary deviation is necessary to facilitate mechanical repairs at the bridge.

DATES: This deviation is effective from February 28, 2005 through March 4, 2005.

FOR FURTHER INFORMATION CONTACT: John McDonald, Project Officer, First Coast Guard District, at (617) 223-8364.

SUPPLEMENTARY INFORMATION: The Casco Bay Bridge has a vertical clearance in the closed position of 55 feet at mean high water and 64 feet at mean low water. The existing drawbridge operation regulations are listed at 33 CFR 117.5.

The bridge owner, Maine Department of Transportation, requested a temporary deviation from the drawbridge operation regulations to facilitate scheduled mechanical maintenance, span lock repairs, at the bridge.

Under this temporary deviation from February 28, 2005 through March 4, 2005, bridge openings between the hours of 6 a.m. and 6 p.m. will require a 24-hour advance notice. The bridge will open on signal at all other times.

This deviation from the operating regulations is authorized under 33 CFR 117.35, and will be performed with all

due speed in order to return the bridge to normal operation as soon as possible.

Dated: January 31, 2005.

Gary Kassof,

Bridge Program Manager, First Coast Guard District.

BILLING CODE 4910-15-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[COTP Western Alaska-05-002]

RIN 1625-AA00

Safety Zones; Gulf of Alaska, Narrow Cape, Kodiak Island, AK

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing two temporary safety zones in the Gulf of Alaska, in the proximity of Narrow Cape, Kodiak Island, Alaska. These zones are needed to protect persons and vessels operating in the vicinity of the safety zones during a rocket launch from the Alaska Aerospace Development Corporation, Narrow Cape, Kodiak Island facility. Entry of vessels or persons into these zones is prohibited unless specifically authorized by the Commander, Seventeenth Coast Guard District, the Coast Guard Captain of the Port, Western Alaska, or their on-scene representative.

DATES: This temporary final rule is effective from 4 p.m. on February 12, 2005 through 11 p.m. on March 31, 2005. The safety zones will be enforced each day of the effective period from 4 p.m. through 11 p.m.

ADDRESSES: Documents indicated in this preamble as being available in the docket are available for inspection and copying at Coast Guard Marine Safety Office Anchorage, 510 "L" Street, Suite 100, Anchorage, AK 99501. Normal Office hours are 7:30 a.m. to 4 p.m., Monday through Friday, except federal holidays.

FOR FURTHER INFORMATION CONTACT: LT Meredith Gillman, Marine Safety Office Anchorage, at (907) 271-6700.

SUPPLEMENTARY INFORMATION:

Regulatory History

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(8), the Coast Guard finds that good cause exists

for not publishing an NPRM. Because the hazardous condition is expected to last for approximately six (6) hours of each day, and because general permission to enter the safety zones will be given during non-hazardous times, the impact of this rule on commercial and recreational traffic is expected to be minimal. Any delay encountered in this regulation's effective date would be contrary to public interest because immediate action is needed to protect human life and property from possible fallout from the rocket launch. The parameters of the zones will not unduly impair business and transits of vessels. The Coast Guard will announce via Broadcast Notice to Mariners the anticipated date and time of each launch and will grant general permission to enter the safety zones during those times in which the launch does not pose a hazard to mariners.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. The process of scheduling a rocket launch is uncertain due to unforeseen delays such as weather that can cause cancellation of the launch. The Coast Guard attempts to publish a final rule as close to the expected launch date as possible, however, these attempts often prove futile due to frequent re-scheduling. Any delay encountered in this regulation's effective date would be contrary to public interest since immediate action is needed to protect human life and property from possible fallout from the rocket launch. The parameters of the zones will not unduly impair business and transits of vessels. The Coast Guard will announce via Broadcast Notice to Mariners the anticipated date and time of each launch and will grant general permission to enter the safety zones during those times in which the launch does not pose a hazard to mariners.

Background and Purpose

The Alaska Aerospace Development Corporation will launch an unmanned rocket from their facility at Narrow Cape, Kodiak Island, Alaska between 5 p.m. and 11 p.m. during a seven-day period between February 12, 2005 and March 31, 2005. The safety zones are necessary to protect spectators and transiting vessels from the potential hazards associated with the launch.

The Coast Guard will announce via Broadcast Notice to Mariners the anticipated date and time of the launch and will grant general permission to enter the safety zones during those times in which a launch schedule does not pose a hazard to mariners. Because
