

country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

On December 31, 1998, PNM, a regulated public utility, filed an application with the Office of Fossil Energy (FE) of DOE for a Presidential permit. PNM proposed to construct two high-voltage transmission circuits within a single right-of-way. Both circuits would have originated at the switchyard adjacent to the PVNGS located west of Phoenix, Arizona, and extended to the U.S.-Mexico border in one of three two-mile wide corridors preliminarily identified by PNM. From the U.S.-Mexico border, the proposed facilities would have extended approximately 60 miles into Mexico where they would have connected with complementary transmission facilities of the Comision Federal de Electricidad (CFE), the national electric utility of Mexico, at CFE's existing Santa Ana Substation.

Parts of the proposed transmission corridor identified by PNM were on Federal land managed by the U.S. Department of the Interior's Bureau of Land Management and the U.S. Department of Agriculture's U.S. Forest Service; both were cooperating agencies in preparation of the EIS. Activities by those agencies with respect to the EIS are also terminated.

Issued in Washington, DC on February 15, 2005.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Fossil Energy.

Affected entities: Entities potentially affected by this action are those coastal and Great Lakes state, local, and tribal governments which are eligible for BEACH Act grants. These are governments that develop and implement programs for monitoring and notification of coastal (marine and Great Lakes) recreation waters adjacent to beaches or similar points of access that are used by the public.

Title: Reporting Requirements for BEACH Act Grants.

Abstract: Congress passed the Beaches Environmental Assessment and Coastal Health (BEACH) Act in October 2000 to amend the Clean Water Act, in part by adding section 406, "Coastal Recreation Water Monitoring and Notification." Section 406(b) authorizes EPA to make grants to States and local governments to develop and implement programs for monitoring and public notification for coastal recreation waters adjacent to beaches or similar points of access that are used by the public, if the State or local government satisfies the requirements of the BEACH Act.

Several of these requirements require a grant recipient to collect and submit information to EPA as a condition for receiving the grant. Section 406(b) requires a grant recipient to provide the factors that the state or local government uses to prioritize funds and a list of waters for which the grant funds will be used. Section 406(b) also requires that a grant recipient's program be consistent with the performance requirements set by EPA under section 406(a); EPA needs information from the grant recipients to determine if the monitoring and notification programs are consistent

with these criteria. On July 19, 2002, EPA published the National Beach Guidance and Required Performance Criteria for Grants (67 *FR* 47540). Section 406(b) also requires that a grant recipient submit a report to EPA that describes the data collected as part of a monitoring and notification program and the actions taken to notify the public when water quality standards are exceeded. Section 406(c) requires a grant recipient to identify lists of coastal recreation waters, processes for States to delegate to local governments the responsibility for implementing a monitoring and notification program, and the content of the monitoring and notification program.

The information covered by this ICR is required of States and local governments that seek to obtain BEACH Act funding. It allows EPA to properly review State and local governments' monitoring and notification programs to determine if they are eligible for BEACH Act grant funding. This information also enables EPA to fulfill its obligations to make this information available to the public as required by sections 406(e) and (g).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,993 hours per grant recipient per year. This burden represents a report and accompanying data which are submitted each year by the 35 eligible States and Territories. In

subsequent years, authorized Tribes and local governments may also become eligible for BEACH Act grants. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: February 9, 2005.

Director, Office of Science and Technology.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

AGENCY: Federal Communications Commission.

ACTION: Notice; correction.

SUMMARY: On January 21, 2005, the Commission published a notice inviting the general public and other Federal agencies to take the opportunity to comment on information collection(s) for OMB Control No. 3060-1061. On page 5446, columns 1 and 2, the Needs and Uses for the information collection were inaccurately described. This notice contains the correct description of the Needs and Uses for the Information Collection.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., Washington, DC 20554 or via the Internet at Judith-B.Herman@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Judith B. Herman at 202-418-0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION: On February 2, 2005 (70 FR 5446), the Federal Communications Commission published a Notice requesting comments on Public Information Collection(s) Being Reviewed by the Federal Communications Commission. In the summary for OMB 3060-1061, the Needs and Uses section of the summary contained an inaccurate description of the decision of the Report and Order (R&O) titled, "*In the Matter of Procedures to Govern the Use of Satellite Earth Stations on Board Vessels (ESV) in the 5925-6425 MHz/3700-4200 MHz Bands and 14.0-14.5 GHz/11.7-12.2 GHz Bands*," IB Docket No. 02-10, FCC 04-286. On page 5446, in the first and second column, the Needs and Uses section is corrected to read as follows:

Needs and Uses: The R&O includes the following new Paperwork Reduction Act (PRA) reporting requirements: (1) C- and Ku-band must collect and maintain vessel tracking data to assist the Commission and affected operators in identifying and resolving sources of interference; (2) C-band ESV operators that coordinate their use of the 5925-6425 MHz band with the Fixed Services (FS) shall file a notification of that coordination with the Commission to be placed on Public Notice; (3) Ku-band ESV operators that coordinate their use of the 14.0-14.2 GHz and 14.47-14.5 GHz bands through the National Telecommunications and Information Administration (NTIA) Interdepartment Radio Advisory Committee (IRAC) shall file a notification of that coordination with the Commission to be placed on Public Notice; and (4) C- and Ku-band ESV operators must have a contact that is available in the United States 24 hours a day, 7 days a week, to respond to Fixed Satellite Service (FSS) operators' requests. The name, telephone number, and other pertinent information of the contact will be posted on the Commission's Web site, <http://www.fcc.gov>.

The Commission established licensing and service rules to govern ESV operations and to prevent interference to existing users within the C- and Ku-
