AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: Michigan Electric Transmission Company, LLC (Applicant) has applied to the U.S. Fish and Wildlife Service (Service) for a 5-year incidental take permit for one covered species pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The application addresses the potential for "take" of the endangered Karner blue butterfly (*Lycaeides melissa samuelis*) associated with reconductoring a 4.07-mile segment of electric power

transmission line within this right-of-way segment running from east-central Muskegon County into the southwest corner of Newaygo County, Michigan. A conservation program to mitigate for the project activities would be implemented as described in the proposed Cobb to Brickyard Reconductoring Low Effect Habitat Conservation Plan (proposed Plan), which would be implemented by the Applicant. We are requesting comments on the permit application and on the preliminary determination that the proposed Plan qualifies as a "Low-Effect" Habitat Conservation Plan, eligible for a categorical exclusion under the National Environmental Policy Act (NEPA) of 1969, as amended.

Section 9 of the Act and its implementing Federal regulations prohibit the take of animal species listed as endangered or threatened. The definition of take under the Act includes the following activities: to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect listed animal species, or attempt to engage in such conduct (16 U.S.C. 1538). "Incidental take" is defined by the Act as take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity. Regulations governing incidental take permits for endangered species are found in the Code of Federal Regulations at 50 CFR 17.22.

The Applicant is seeking a permit for take of the Karner blue butterfly during the life of the permit. The project encompasses reconductoring a 4.07-mile
