Proposed Project: The National Health Service Corps Uniform Data System (OMB No. 0915–0232): Revision

The National Health Service Corps (NHSC), managed by the Bureau of Health Professions (BHP), Health Resources and Services Administration (HRSA), is committed to improving the health of the Nation’s underserved by uniting communities in need with caring health professionals and by supporting communities’ efforts to build better systems of care.

The NHSC needs to collect data on its programs to ensure compliance with legislative mandates and to report to Congress and policymakers on program accomplishments. To meet these objectives, the NHSC requires a core set of information collected annually that is appropriate for monitoring and evaluating performance and reporting on annual trends. The following information will be collected from each site: services offered and delivery method; users by various characteristics; staffing and utilization; charges and collections; receivables, income and expenses; and managed care.

The estimated burden is as follows:

Type of report	Number of respondents	Responses per respondent	Hours per response	Total burden hours
Universal Report	1200	1	27	32,400
