These standards specify system characteristics that should be useful if you are a designer, manufacturer, installer, or user of the equipment. If you comply with these standards, the equipment will perform its intended functions satisfactorily under all conditions normally encountered in routine aeronautical operations.

How To Get Copies

You can get a copy of the proposed TSO on the Internet from the FAA’s Regulatory and Guidance Library (RGL) at http://www.airweb.faa.gov/rgl.
