## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Agency Information Collection Activities: Submission for OMB Review; Comment Request

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice.

**SUMMARY:** NARA is giving public notice that the agency has submitted to OMB for approval the information collections described in this notice. The public is invited to comment on the proposed information collections pursuant to the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted to OMB at the address below on or before March 28, 2005 to be assured of consideration.

**ADDRESSES:** Send comments to Desk Officer for NARA, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5167.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the proposed information collections and supporting statements should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-837-3213.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on December 16, 2004 (69 FR 75348). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collections are necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collections; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d)

ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this collection. In this notice, NARA is soliciting comments concerning the following information collections:

*Title:* Order Forms for Genealogical Research in the National Archives.

*OMB number:* 3095-0027.

*Agency form numbers:* NATF Forms 81, 82, 83, 84, 85, and 86.

*Type of review:* Regular.

*Affected public:* Individuals or households.

*Estimated number of respondents:* 97,600.

*Estimated time per response:* 10 minutes.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 16,267 (rounded up).

*Abstract:* Submission of requests on a form is necessary to handle in a timely fashion the volume of requests received for these records (approximately 12,000 per year for the NATF 81, approximately 600 per year for the NATF 82, approximately 1,000 per year for the NATF 83, approximately 6,000 per year for the NATF 84, approximately 46,000 per year for the NATF 85, and approximately 32,000 per year for the NATF 86) and the need to obtain specific information from the researcher to search for the records sought. The form is printed on carbonless paper as a multi-part form to allow the researcher to retain a copy of his request and NARA to respond to the researcher on the results of the search or to bill for copies if the researcher wishes to order the copies. As a convenience, the form will allow researchers to provide credit card information to authorize billing and expedited mailing of the copies. You can also use Order Online! ([http://www.archives.gov/research\\_room/obtain\\_copies/military\\_and\\_genealogy\\_order\\_forms.html](http://www.archives.gov/research_room/obtain_copies/military_and_genealogy_order_forms.html)) to complete the forms and order the copies.

Dated: February 17, 2005.

**Shelly L. Myers,**

*Deputy Chief Information Officer.*

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Records Schedules; Availability and Request for Comments

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

**DATES:** Requests for copies must be received in writing on or before April 11, 2005. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

**ADDRESSES:** You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means: Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001, E-mail: [records.mgt@nara.gov](mailto:records.mgt@nara.gov), FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

**FOR FURTHER INFORMATION CONTACT:** Paul M. Wester, Jr., Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-3120. E-mail: [records.mgt@nara.gov](mailto:records.mgt@nara.gov).

**SUPPLEMENTARY INFORMATION:** Each year Federal agencies create billions of records on paper, film, magnetic tape,

and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

#### Schedules Pending

1. Department of Agriculture, Foreign Agricultural Service (N1-166-02-1, 8 items, 8 temporary items). Records relating to dairy and sugar commodities imported into the United States. Included are such records as license applications, importer case files, reports used to monitor dairy imports, and correspondence and background information relating to countries under

the U.S. sugar tariff rate quota. Also included are electronic copies of documents created using electronic mail and word processing.

2. Department of Commerce, National Oceanic and Atmospheric Administration (N1-370-04-3, 66 items, 64 temporary items). Paper and electronic records accumulated by the National Weather Service, including files relating to such matters as product and service dissemination, water, weather, and climate prediction and verification models, sensors and equipment systems, configuration management, water, weather, and climate summaries, the compilation of maps and analyses used for official forecasts, forecasts and observations, facilitative aspects of the agency's modernization initiative, and equipment engineering specifications. Also included are electronic copies of records created using electronic mail and word processing. Proposed for permanent retention are recordkeeping copies of records relating to the overall management of the agency's modernization initiative and the closure of offices where closure was contested.

3. Department of Commerce, Bureau of the Census (N1-29-05-1, 1 item, 1 temporary item). Completed questionnaires accumulated in connection with a 2004 overseas enumeration test and non-aggregated respondent data obtained from those questionnaires.

4. Department of Defense, National Geospatial-Intelligence Agency (N1-537-03-5, 11 items, 10 temporary items). Geospatial contract specification files, map and chart correction records, and geospatial specification and symbols files accumulated by offices that do not have functional program responsibility. Also included are electronic copies of records created using electronic mail and word processing. Recordkeeping copies of geospatial specifications and symbols accumulated by the office assigned functional program responsibility are proposed for permanent retention. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

5. Department of the Interior, Office of the Secretary (N1-48-05-1, 4 items, 4 temporary items). Copies of records provided to the Independent Counsel investigating a dog track in Hudson, Wisconsin. Records include paper copies of documents, digital images, and an electronic index. Also included are electronic copies of documents created using electronic mail and word processing.

6. Department of Justice, Bureau of Alcohol, Tobacco, Firearms, and Explosives (N1-436-05-3, 3 items, 3 temporary items). Incident reports files containing information or allegations which are of an investigative nature but do not relate to a specific investigation. Also included are electronic copies of documents created using electronic mail and word processing.

7. Department of Transportation, Bureau of Transportation Statistics (N1-570-04-30, 4 items, 3 temporary items). Records relating to unpublished regulations, standards, and guidelines. Included are such records as draft versions of proposed regulations and guidelines, public and internal comments, hearing transcripts, meeting minutes, and other background material. Also included are electronic copies of records created using electronic mail and word processing. Proposed for permanent retention are recordkeeping copies of files relating to published regulations, standards, and guidelines. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

8. Department of Transportation, Bureau of Transportation Statistics (N1-570-04-31, 4 items, 3 temporary items). Records of rulemaking committees relating to unpublished rules and regulations, including meeting notes, organizing charters, reports, and correspondence. Also included are electronic copies of records created using electronic mail and word processing. Proposed for permanent retention are recordkeeping copies of files relating to published rules and regulations. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

9. Department of Transportation, Bureau of Transportation Statistics (N1-570-04-32, 5 items, 4 temporary items). Records relating to the ongoing management of programs and routine projects within programs. Included are such records as correspondence, memorandums, agendas, background papers, speeches, and oversight reviews. Also included are electronic copies of records created using electronic mail and word processing. Recordkeeping copies of program management records held by the Director are proposed for permanent retention. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

10. Department of the Treasury, Financial Management Service (N1-425-05-1, 37 items, 36 temporary items). Records of the Administrative

Programs Division relating to such matters as health and safety programs, records management, supply and property management, and facilities management. Records include project files, studies, correspondence, and reports. Also included are electronic copies of records created using electronic mail and word processing. Proposed for permanent are recordkeeping copies of "Fiscal Scene," a publication produced by the agency.

11. Department of the Treasury, Financial Crimes Enforcement Network (N1-559-05-1, 34 items, 34 temporary items). Records relating to the agency's mission of providing Government-wide support for the detection, investigation, and prosecution of money laundering and other financial crimes. Included are such records as intelligence report case files and related electronic tracking systems, working papers, inspection reports, Web site content and Web site management records, and records relating to presentations and briefings about the agency. Also included are electronic copies of records created using electronic mail and word processing. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

12. Environmental Protection Agency, Office of Prevention, Pesticides, and Toxic Substances (N1-412-05-6, 2 items, 2 temporary items). Chemical review case files consisting of reviews of chemical compounds used to support risk assessments, benefit assessments, and regulatory actions. Electronic copies of records created using word processing and electronic mail are also included.

13. National Archives and Records Administration, Office of Human Resources and Information Services (N1-64-05-4, 4 items, 4 temporary items). Files relating to inappropriate Internet use, including reports identifying employees suspected of such activities. Also included are electronic copies of records created using electronic mail and word processing.

14. Social Security Administration, Office of the Inspector General (N1-47-04-2, 32 items, 29 temporary items). Audit files and related tracking databases, investigative files and allegations and related tracking databases, monetary penalty files, routine correspondence, budget files, procedures manuals, administrative files, and training records. Also included are electronic copies of records created using electronic mail and word processing. Proposed for permanent retention are recordkeeping copies of such records as annual and semiannual

reports to Congress, strategic plans, and files relating to the establishment of the office.

15. Social Security Administration, Office of Disability and Income Security Programs (N1-47-05-1, 70 items, 70 temporary items). Claims files and other records accumulated pursuant to Title III, Title XVI, and Title XVIII, parts A and B, of the Social Security Act. Also included are electronic copies of records created using electronic mail and word processing. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

Dated: February 18, 2005.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-334 and 50-412]

### **FirstEnergy Nuclear Operating Company (FENOC); Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing**

The U.S. Nuclear Regulatory Commission (the NRC or Commission) is considering issuance of an amendment to Facility Operating License Nos. DPR-66 and NPF-73, issued to FENOC (the licensee), for operation of the Beaver Valley Power Station, Unit Nos. 1 and 2 (BVPS-1, BVPS-2), located in Beaver County, Pennsylvania.

The proposed amendments would revise the Technical Specifications (TSs) to lower the BVPS-2 overpressure protection system (OPPS) enable temperature, allow one residual heat removal (RHR) loop to be inoperable for surveillance testing, remove the TS List of Figures and List of Tables from the BVPS-1 TSs, and make various minor changes to achieve consistency between units and with the Standard TSs for Westinghouse plants and with some TS Task Force changes.

On February 17, 2005, the licensee determined that the requirements of Title 10 of the Code of Federal Regulations (10 CFR), Section 50.91(a)(2) have not been satisfied, in that Notice for Public Comment on the above referenced license amendment requests had not been published in the **Federal Register**. The licensee further

determined that there would be insufficient time to provide for the normal 30-day notice prior to the approval and implementation of the amendment without requiring plant shutdown. The licensee stated that it complied with all applicable requirements for completeness and timeliness in submitting the above license amendment application. Approval had been requested by February 15, 2005, to support revision of the existing BVPS-2 Pressure/Temperature limit curves prior to their expiration in mid-March 2005. In light of the above situation, the licensee has requested that the NRC consider these circumstances exigent and requests that further processing of the license amendment requests be completed under the provisions of 10 CFR 50.91(a)(6).

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

Pursuant to 10 CFR 50.91(a)(6) for amendments to be granted under exigent circumstances, the NRC staff must determine that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?

Response: No. The modification to the Applicability of TS 3.4.3, Safety Valves, provides alignment with the Applicability of TS 3.4.9.3, Overpressure Protection Systems, such that the TS assures that overpressure protection is specified over all operational modes.

The modification and deletion of Notes associated with RCS [reactor coolant system] injection capability of the charging pumps during Mode transitioning results in a single Note that controls the charging pump restrictions and is consistent with the STS [standard technical specifications]. As a result the charging pump RCS injection capabilities during Mode transitioning restrictions are either not changed or made more restrictive by the proposed changes.
