

debris and/or obstacles that pose a public health or safety risk, and other atypical circumstances requiring beach access (e.g., boat groundings, downed aircraft, etc.); and (6) routine beach cleaning.

Other substantive changes to the original HCP that are currently proposed by the Applicant include: (1) A reduction in the amount and type of biological data to be collected for monitoring; (2) a 200-foot expansion of public beach driving in the existing HCP Region 3 Transitional Beach Driving Area; (3) the removal of the light management program as a formal component of HCP mitigation; (4) the addition of funding and operation of a sea turtle rehabilitation facility as a formal component of HCP mitigation; (5) the implementation of an expanded county-wide sea turtle public awareness and education program; (6) the construction and operation of a sea bird rehabilitation facility at the Marine Science Center in the vicinity of Ponce de Leon Inlet; (7) the implementation of annual piping plover surveys within designated critical habitat; and (8) the restoration of 400 linear feet of dune habitat.

Except for the changes identified above, the Applicant proposes to continue implementation of all minimization and mitigation measures outlined in the original HCP. Generally, these measures include: (1) Year-round closure of 18.92 miles of beach to public vehicular access; (2) establishment of a year-round 30-foot conservation zone (i.e., no public vehicle entry) and daytime only driving on 11.65 miles of beach; (3) establishment of a year-round 15-foot conservation zone and daytime only driving on 5.04 miles of beach; (4) annual training of County beach management staff; (5) implementation of a public education program; and (6) implementation of a vehicle rut removal program.

The Service has made a preliminary determination that renewal of the ITP is not a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of NEPA. This preliminary information may be revised due to public comment received in response to this notice and is based on information contained in the EA and HCP.

The Service will evaluate the HCP and comments submitted thereon to determine whether the application meets the issuance criteria requirements of section 10(a)(1)(B) of the Act. By conducting an intra-Service section 7 consultation the Service will also evaluate whether issuance of the section

10(a)(1)(B) ITP would comply with section 7 of the Act. The results of this consultation, in combination with the above findings, will be used in the final analysis to determine whether or not to issue the ITP for the five species of sea turtle and the piping plover.

Dated: January 31, 2005.

Cynthia K. Dohner,

Acting Regional Director, Southeast Region.
