Measure One: As a result of products and services provided by the Equity Assistance Centers, an increasing percentage of customers will develop, implement, or improve their policies and practices in eliminating, reducing, or preventing harassment, conflict, and school violence.

Measure Two: As a result of products and services provided by the Equity Assistance Centers, an increasing percentage of customers will develop, implement, or improve their policies and practices ensuring that students of different race, national origin, and sex have equitable opportunity for high-quality instruction.

Performance Indicator Two: Training and technical assistance services result in products and services that are deemed to be of high usefulness to education policy or practice.

Measure: An increasing percentage of customers will report that the products and services they received from the Equity Assistance Centers are of high usefulness to their policies and practices.
