

This action amends the Oriental fruit fly regulations by removing a portion of Los Angeles County, CA, from the list of quarantined areas.

County records indicate there are approximately 23 nurseries, 27 farmers markets, 4 certified growers, 3 mobile vendors, and 152 fruit sellers within the quarantined portion of Los Angeles County that could be affected by the lifting of the quarantine in this interim rule.

We expect that the effect of this interim rule on the small entities referred to above will be minimal. Small entities located within the quarantined area that sell regulated articles do so primarily for local intrastate, not interstate, movement, so the effect, if any, of this rule on these entities appears likely to be minimal. In addition, the effect on any small entities that may move regulated articles interstate has been minimized during the quarantine period by the availability of various treatments that allow these small entities, in most cases, to move regulated articles interstate with very little additional cost. Thus, just as the previous interim rule establishing the quarantined area in Los Angeles County, CA, had little effect on the small entities in the area, the lifting of the quarantine in the current interim rule will also have little effect.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

##### Federal Aviation Administration

#### 14 CFR Part 71

[Docket No. FAA–2005–20066; Airspace Docket No. 05–ACE–8]

#### Modification of Class E Airspace; Macon, MO

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Direct final rule; request for comments.

**SUMMARY:** This action amends Title 14 Code of Federal Regulations, part 71 (14 CFR 71) by revising Class E airspace at Macon, MO. A review of controlled airspace currently titled Macon–Power, MO revealed it does not conform to proper format, does not reflect the correct name of the airport nor its correct airport reference point (ARP) and does not comply with criteria for 700 feet above ground level (AGL) airspace required for diverse departures. The area is renamed, modified and enlarged to conform to the criteria in FAA Orders.

**DATES:** This direct final rule is effective on 0901 UTC, July 7, 2005. Comments

for inclusion in the Rules Docket must be received on or before April 20, 2005.

**ADDRESSES:** Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify the docket number FAA-2005-20066/ Airspace Docket No. 05-ACE-8, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

**FOR FURTHER INFORMATION CONTACT:** Brenda Mumper, Air Traffic Division, Airspace Branch, ACE-520A, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329-2524.

**SUPPLEMENTARY INFORMATION:** This amendment to 14 CFR Part 71 modifies the Class E airspace area extending upward from 700 feet above the surface currently titled "Macon-Fower, MO". In order to conform to proper format, the airspace area is renamed "Macon, MO". The airport at Macon, MO is incorrectly identified as "Macon-Fower Municipal Airport" and its ARP is not accurate. This action amends the airport name in the legal description to "Macon-Fower Memorial Airport" and corrects the ARP. An examination of controlled airspace for Macon-Fower Memorial Airport revealed it does not meet the criteria for 700 feet AGL airspace required for diverse departures as specified in FAA Order 7400.2E, Procedures for Handling Airspace Matters. The criteria in FAA Order 7400.2E for an aircraft to reach 1200 feet AGL, taking into consideration rising terrain, is based on a standard climb gradient of 200 feet per mile plus the distance from the airport reference point to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile. This amendment expands the airspace area from a 6.4-mile radius to a 6.5-mile radius of Macon-Fower Memorial Airport and brings the legal description of the Macon, MO Class E airspace area into compliance with FAA Order 7400.2E. This area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the

earth are published in paragraph 6005 of FAA Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

### The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

### Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2005-20066/Airspace Docket No. 05-ACE-8." The postcard will be date/time stamped and returned to the commenter.

### Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a "significantly regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this a routine matter that will only affect air traffic procedure and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority since it contains aircraft executing instrument approach procedures to Macon-Fower Memorial Airport.

#### Defense Priorities and Allocations System (DPAS): Electronic Transmission of Reasons for Rejecting Rated Orders

**AGENCY:** Bureau of Industry and Security (BIS), Commerce.

**ACTION:** Final rule.

**SUMMARY:** This rule revises the Defense Priorities and Allocations System to allow a person rejecting a rated order to give his or her reasons for the rejection through electronic means rather than requiring a person to submit the rationale in writing.

**DATES:** This rule is effective April 6, 2005.

**FOR FURTHER INFORMATION CONTACT:** Mr. Eddy Aparicio, Office of Strategic Industries and Economic Security, Room 3876, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone; (202) 482-8234, or e-mail; [eparici@bis.doc.gov](mailto:eparici@bis.doc.gov).

**SUPPLEMENTARY INFORMATION:** Under Title I of the Defense Production Act of 1950, as amended, (50 U.S.C. App. 2061 *et seq.*), the President is authorized to require preferential acceptance and performance of contracts or orders supporting certain approved national

defense and energy programs, and to allocate materials, services, and facilities in such a manner as to promote these approved programs. Additional priorities authority is found in section 18 of the Selective Service Act of 1948 (50 U.S.C. App. 468), 10 U.S.C. 2538, and 50 U.S.C. 82. DPAS authority has also been extended to support emergency preparedness activities under Title VI of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (45 U.S.C. 5915 *et seq.*).

Originally published in 1984, the DPAS regulations were revised on June 11, 1998 (63 FR 31918), to update, streamline, and clarify a number of provisions. The purpose of the DPAS is to assure the timely availability of industrial resources to meet current national defense and emergency preparedness program requirements, including critical infrastructure protection and restoration, as well as provide an operating system to support rapid industrial response in a national emergency. In pursuit of the DPAS mission, the Department of Commerce endeavors to minimize disruptions to the normal commercial activities of industry.

An integral component of DPAS is a system of "rated orders." Prior to the effective date of this rule, recipients of rated orders who rejected such orders were required to furnish the reasons for rejection in writing and not electronically. This rule provides that such reasons may be furnished either in writing or electronically.

BIS published a notice of proposed rulemaking in the **Federal Register** on November 22, 2004 (69 FR 67872) that proposed to make electronic furnishing of the reasons for rejection permissible. BIS received one comment on the proposed rule, which favored the proposal. Therefore BIS is publishing the final rule exactly as stated in the proposed rule. Under this final rule a person will be able to transmit his or her rationale for rejection either electronically or in writing. This amendment to the DPAS regulations should allow this information to be transmitted more quickly.

#### Rulemaking Requirements

1. *Executive Order 12866:* This rule has been determined to be not significant under EO 12866.

2. *Executive Order 13132:* This rule does not contain policies with federalism implications as this term is defined in EO 13132.

3. *Paperwork Reduction Act:* This rule contains collection of information requirements subject to the Paperwork

Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA).

Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the PRA unless that collection of information displays a currently valid Office of Management and Budget (OMB) control number. These collections have been approved by the OMB under control number 0694-0092, "Procedures for Acceptance or Rejection of a Rated Order," which carries a burden hour estimate of 1 to 15 minutes per response. This rule results in an overall reduction of approximately five minutes for the one percent of respondents who reject rated orders they receive.

4. *Regulatory Flexibility Act:* Chief Counsel for Regulation of the Department of Commerce has certified to the Counsel for Advocacy of the Small Business Administration that this rule would not have a significant economic impact on a substantial number of small entities (*i.e.*, companies or other organizations involved in production for the U.S. defense industrial base). The factual basis for this determination was published with the proposal rule and is not repeated here. No comments were received regarding the economic impact of this rule. As a result, no final regulatory flexibility analysis was prepared.
