

proposed action and finds that the proposed exemption involves no increase in the total amount of radioactive effluent that may be released off site in the event of a design-basis accident. Therefore, the calculated doses remain within the acceptance criteria of 10 CFR Part 100 and Standard Review Plan Section 15, and there is no significant increase in occupational or public radiation exposure. The NRC staff thus concludes that granting the proposed exemption would result in no significant radiological environmental impact.

The proposed action does not affect non-radiological plant effluents or historical sites and has no other environmental impact. Therefore, there are no significant non-radiological impacts associated with the proposed exemption.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Alternative to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the “no action” alternative). Denial of the exemption would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement dated January 1974 for the Brunswick Steam Electric Plant, Unit Nos. 1 and 2.

Agencies and Persons Consulted

In accordance with its stated policy, on March 1, 2005, the NRC staff consulted with the North Carolina State official, Ms. Wendy Tingle of the North Carolina Department of Environmental and Natural Resources, Division of Radiation Protection, regarding the environmental impact of the proposed action. Ms. Tingle had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated October 6, 2004. Documents may

be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.
