Risk Management Agency

Title: Organic Price Index Project.
OMB Control Number: 0563-NEW.
Summary of Collection: The Risk Management Agency is responsible for promoting, supporting, and regulating a broad array of market-based, risk management programs for agricultural producers. In legislation enacted in 2000 and 2002, Congress authorized and directed the agency to "increase participation by producers of underserved agricultural commodities, including specialty crops" and to "enter into contracts to carry out research and development" to achieve this end.

Need and Use of the Information: Since early 2003, the Rodale Institute has posted prices for around 40 organic products in a file called the "Organic Price Index". The prices have been collected from wholesale distributors, sales agencies, and cooperatives that specialize in the marketing of organic products. Fruit and vegetable prices have been collected from organic wholesalers operating in the vicinity of the Seattle and Boston wholesale produce markets. Prices of identical conventional products reported by Agricultural Marketing Service in these markets are also posted for comparison. As part of this project, prices will be collected for a wider array of organic products and in 13 additional market areas.

Description of Respondents: Farms; Business or other for-profit.
Number of Respondents: 60.
Frequency of Responses: Reporting: On occasion.
Total Burden Hours: 53.

SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius (Codex) was established in 1962 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the major international organization for protecting the health and economic interests of consumers and encouraging fair international trade in food. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled. In the United States, USDA, FDA, and the Environmental Protection Agency manage and carry out U.S. Codex activities.

The Codex Committee on General Principles (CCGP) deals with rules and procedures referred to it by the Codex Alimentarius Commission, including the establishment of principles that define the purpose and scope of the Codex Alimentarius and the nature of Codex standards. The development of mechanisms to address any economic impact statements also is the responsibility of the CCGP. The CCGP is chaired by France.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the 22nd Session of CCGP will be discussed during the public meeting:

- Matters referred by the Codex Alimentarius Commission and other Codex Committees.
- Proposed Draft Working Principles for Risk Analysis for Food Safety.
- Proposed Draft Revised Code of Ethics for International Trade in Foods.
- Proposed Amendments to the Procedural Manual: Acceptance of Codex Standards.
- Revision of the definition of the term "food".
- Consideration of the structure and presentation of the Procedural Manual.
- Clarification of the duration of the term of the Members of the Executive Committee.

Each issue will be fully described in documents distributed, or to be distributed, by the French Secretariat to

the meeting. Members of the public may access or request copies of these documents (*see ADDRESSES*).

Public Meeting

At the March 29, 2005, public meeting, draft U.S. positions on these agenda items will be described, discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the delegate. Written comments should state that they relate to activities of the 22nd Session of the CCGP.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that the public and, in particular, minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it on-line through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2005_Notices_Index/.

FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and other types of information that could affect or would be of interest to our constituents and stakeholders. The update is communicated via Listserv, a free electronic mail subscription service for industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. The update is available on the FSIS Web page. Through Listserv and the Web page, FSIS is able to provide information to a much broader, more diverse audience.

In addition, FSIS offers an electronic mail subscription service which provides an automatic and customized notification when popular pages are updated, including **Federal Register** publications and related documents. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/ and allows FSIS customers to sign up for subscription options across eight categories. Options range from recalls to export information to regulations, directives, and notices.

Customers can add or delete subscriptions themselves and have the option to protect their accounts with passwords.

Done in Washington, DC, on March 9, 2005.

F. Edward Scarbrough,

U.S. Manager for Codex Alimentarius.
