

In this NPRM, the Commission seeks comment on the classification of prepaid calling card services, the scope of Federal jurisdiction over such services, and whether the Commission should take steps to ensure that prepaid calling cards remain affordable to members of the military and their families. The Commission's resolution of these issues will affect not only small providers of prepaid cards, but also small LECs that exchange traffic with these providers and small IXC's that compete with these providers. Options that reduce burdens for one type of small entity may increase the burden on another type of small entity. We therefore seek comment on the types of burdens small entities could face if the Commission alters its treatment of prepaid calling card providers as proposed in the NPRM. Entities, especially small businesses, are encouraged to quantify, if possible, the costs and benefits of potential reporting, recordkeeping, and other compliance requirements. We will consider any proposals made to minimize significant economic impact on small entities.
