Duty Assessment and Cash Deposit Requirements

The Department shall determine, and Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. The Department will issue appropriate appraisal instructions directly to CBP within 15 days of publication of the final results of review. Furthermore, the following deposit rates will be effective with respect to all shipments of certain corrosion-resistant carbon steel flat products from Canada entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results, as provided for by section 751(a)(2)(C) of the Act: (1) For Dofasco, the cash deposit rate will be the rate indicated above; (2) for Steloco, the rate is *de minimis* and therefore, there is no cash deposit requirement; (3) for previously reviewed or investigated companies not listed above, the cash deposit rate will be the company-specific rate established for the most recent period; (4) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (5) for all other producers and/or exporters of this merchandise, the cash deposit rate shall be the "all other" rate established in the LTFV investigation, which is 18.71 percent. The deposit rate, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification of Interested Parties

This notice also serves as a final reminder to importers of their responsibility under § 351.402(f)(2) of the Department's regulations to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could

result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO as explained in the administrative order itself. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with sections 751(a)(1)(A) and 777(i)(1) of the Act.
