

negligible amount of indirect imports during the surveyed period.

The Department determined that the predominate cause of workers' separations at the subject company was related to the flood that shut down the subject company's furnaces beginning on September 17, 2004.

In the request for reconsideration, the petitioner inferred that imports contributed to the closure of the subject facility.

During the reconsideration investigation, the Department requested additional information from the subject company, including information which would enable the Department to conduct an expanded customer survey.

A careful review of the new information obtained during the reconsideration investigation revealed that the subject company's production level increased January through September 2004 from January through September 2003 levels, prior to the flood, and that subject company sales to customers increased January through September 2004 from January through September 2003 levels.

Conclusion

After reconsideration, I affirm the original notice of negative determination of eligibility to apply for worker adjustment assistance for workers and former workers of Glenshaw Glass Company, Glenshaw, Pennsylvania.

Signed at Washington, DC, this 9th day of March, 2005.

Liz Claiborne, Inc., North Bergen, NJ; Notice of Affirmative Determination Regarding Application for Reconsideration

By application of December 10, 2004, a representative of the New York Metropolitan Area Joint Board, UNITE HERE requested administrative reconsideration of the Department of Labor's negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA), applicable to workers of the subject firm.
