Northern Natural Gas Company; Notice of Limited Waiver

March 17, 2005.

Take notice that on March 14, 2005, Northern Natural Gas Company (Northern) tendered for filing a petition for a limited waiver of Northern's FERC Gas Tariff to allow Northern's customers one additional business day to review preliminary commodity invoices and for Northern to produce final invoices as part of the transition to a new gas accounting system, and one extra business day for customers to trade imbalances since the commodity billing information affects shipper imbalance statement.

Northern states that the one extra business day will allow final commodity invoices and transportation imbalance statements for February 2005 production to be tendered on the 10th business day of March 2005, rather than the 9th business day and for imbalance trading to be completed by the 18th business day, rather than the 17th business day. Northern states that the one-day extension will help to assure that customers receive accurate commodity invoices for February 2005 and have an appropriate amount of time to trade any imbalances.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate.
