Food and Drug Administration Regulations; Drug and Biological Product Consolidation; Addresses; Technical Amendment

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending certain regulations regarding biological products to include references to the Center for Drug Evaluation and Research (CDER) or the Director, CDER, and to include CDER address information or updated CDER address information, where appropriate. FDA is also amending the regulations to update mailing address information including mailing codes for the Center for Biologics Evaluation and Research (CBER), and to place the current mailing addresses for certain biologics regulations in a single location. These changes, among others, are being taken to reflect the reorganization between CBER and CDER due to the transfer of responsibility for certain products from CBER to CDER, and to ensure the consistency and accuracy of the regulations.

DATES: This rule is effective March 24, 2005.

SUPPLEMENTARY INFORMATION:

I. Background

A. Transfer of Regulatory Responsibility from the Center for Biologics Evaluation and Research to the Center for Drug Evaluation and Research

In a letter dated June 20, 2003, FDA notified sponsors that the regulatory responsibility, review, and continuing oversight for many biological products would be transferred from CBER to CDER. This change in regulatory responsibility resulted in the transfer of applications for the affected product classes (see section I.B of this document). This consolidation initiative was undertaken to provide greater opportunities to further develop and coordinate scientific and regulatory activities between CBER and CDER, leading to a more efficient, effective, and consistent review program for human drugs and biologics.

In the Federal Register of June 26, 2003 (68 FR 38067), we published a notice announcing the transfer of certain product oversight from CBER to CDER. On June 30, 2003, the responsibility for regulating most therapeutic biologics, with certain exceptions (e.g., cell and gene therapy products and therapeutic vaccines) was transferred from the Office of Therapeutics Research and Review (OTRR), CBER, to the Office of New Drugs (OND) and the Office of Pharmaceutical Science (OPS), CDER. Initially, this transfer of products was effected when the divisions of OTRR formerly within CBER were detailed to offices within CDER. On October 1, 2003, those CBER offices detailed to CDER were incorporated into CDER’s organizational structure. Throughout these transitions, the staff that was formerly with OTRR, CBER, maintained responsibility for the therapeutic biologic products.

The two new CDER offices established for review of the therapeutic biologics include the OND, Office of Drug Evaluation VI (ODE VI), and the OPS, Office of Biotechnology Products (OBP). Within ODE VI, the following divisions were established: Division of Therapeutic Biological Oncology Products, Division of Therapeutic Biological Internal Medicine Products, and Division of Review Management and Policy. Within OBP, the following divisions were established: Division of Monoclonal Antibodies and Division of Therapeutic Proteins. The delegations of authority for CBER and CDER, which give officials in the Centers the legal authority needed to take substantive actions and perform certain functions of the Commissioner of Food and Drugs, have been revised to reflect these changes.

B. Products Transferred to CDER and Products Remaining in CBER

The change in regulatory responsibility resulted in the transfer of applications to CDER for products belonging to the following product classes:

• Monoclonal antibodies for in-vivo use;

• Proteins intended for therapeutic use, including cytokines (e.g., interferons), enzymes (e.g., thrombolytics), and other novel proteins, except for those that are specifically assigned to CBER (e.g., vaccines and blood products). This category includes therapeutic proteins derived from plants, animals, or microorganisms, and recombinant versions of these products;

• Immunomodulators (nonvaccine and nonallergenic products intended to treat disease by inhibiting or modifying a preexisting immune response); and

• Growth factors, cytokines, and monoclonal antibodies intended to mobilize, stimulate, decrease or otherwise alter the production of hematopoietic cells in vivo.

The following biological product classes remain at CBER:

• Cellular products, including products composed of human, bacterial or animal cells (such as pancreatic islet cells for transplantation), or from physical parts of those cells (such as whole cells, cell fragments, or other components intended for use as preventative or therapeutic vaccines);

• Allergenic extracts used for the diagnosis and treatment of allergic diseases and allergen patch tests;

• Antitoxins, antivenins, and venoms;

• Vaccines (products intended to induce or increase an antigen specific immune response for prophylactic or therapeutic immunization, regardless of the composition or method of manufacture);

• Blood, blood components, plasma derived products (e.g., albumin, immunoglobulins, clotting factors, fibrin sealants, proteinase inhibitors), including recombinant and transgenic versions of plasma derivatives (e.g., clotting factors), blood substitutes,

1 Growth factors, cytokines, and monoclonal antibodies intended to mobilize, stimulate, decrease or otherwise alter the production of hematopoietic cells in vivo, for the purpose of being harvested for use in the production of a therapeutic cellular or blood product, may be regulated in combination with the therapeutic cellular or blood product, as appropriate. Sponsors of products that fit this description should contact the center jurisdiction officers for guidance on appropriate center assignment.
plasma volume expanders, human or animal polyclonal antibody preparations including radiolabeled or conjugated forms, and certain fibrinolytics such as plasma-derived plasmin, and red cell reagents.

The lists above contain some combination products comprised of a biological product component with a device and/or drug component, although such products are not specifically identified. Combination products are assigned to a Center for review and identified. Combination products are not specifically biological product component with a biological product assigned to CDER, the product will be assigned to CBER. Similarly, when a product’s primary mode of action is attributable to a type of biological product assigned to CDER, the product will be assigned to CDER. For further information about combination products, see http://www.fda.gov/oc/combination, or contact the Office of Combination Products at 301–827–9229, or combination@fda.gov.

II. Organizational and Mailing Address Changes

As a result of this product consolidation and the resulting changes to the organizational structure of CBER and CDER, certain technical amendments are necessary to the regulations in title 21 of the Code of Federal Regulations, chapter I. These amendments include adding references to CDER or the CDER Director, and the CDER address information or updated CDER address information where appropriate. CDER has announced through the Internet new mailing addresses for certain therapeutic biological product submissions.

We are also amending the biologics regulations in parts 600 through 680 (21 CFR parts 600 through 680) to update the mailing address information including mailing codes for the various submissions to CBER, and are amending these regulations to place the current mailing addresses in a single location in part 600.

The various CBER mailing addresses currently listed in the biologics regulations under parts 600 through 680, as applicable, are being moved to one location under new §600.2. The creation of §600.2 will ensure the consistency and accuracy of the regulations in part 600 by providing one central location to obtain CBER’s mailing addresses and will expedite the mail flow system throughout CBER.

Section 600.2 will provide the public with direct and easy access to CBER’s mailing addresses for various CBER submissions. The specific biologics regulations will continue to identify the appropriate recipient and specific submission requirements for the various CBER submissions. Section 600.2 will include the addresses for submissions such as biologics license applications and the amendments and supplements to these applications, samples and protocols for licensed biological products, biological product deviation reports, adverse experience reports, fatality reports, Vaccine Adverse Event Reporting System (VAERS) reports, and other correspondence.

The CBER addresses for some of the various submissions under parts 600 through 680, related to the transferred biological products regulated by CDER, have also been included in §600.2.

In the amendments to parts 1, 99, 201, 203, 206, 310, 312, and 314 (21 CFR parts 1, 99, 201, 203, 206, 310, 312, and 314), the updated CBER mailing address and other related information will continue to be located directly in the applicable regulations so as to minimize the need for cross-referencing across different volumes of the Code of Federal Regulations.

Section 610.12(e)(2)(ii) is amended to include the updated address for obtaining American Type Culture Collection (ATCC) strains of microorganisms described in that regulation and available from the ATCC.

III. Other Changes as a Result of the Drug and Biological Product Consolidation

The revised address information for the submission of investigational new drug applications is included in §312.140(a). We are revising §312.140(b), by removing the currently listed products, and removing §312.140(c), biological products for human use which are also radioactive drugs, because these products will be submitted to the appropriate Center in accordance with revised §312.140(a). As a result of the removal of current §312.140(c), we are redesignating current §312.140(d) as §312.140(c).

We are removing current §314.440(b)(2), urokinase products, because this product is now regulated by CDER. As a result, we are redesignating current §314.440(b)(3) as §314.440(b)(2). We are also clarifying §314.440(b) by adding as paragraphs (b)(3) and (b)(4), two additional products that are submitted to CBER as new drug applications.

We have also removed and reserved §601.2(b) radioactive biological products, because these products will be submitted in accordance with revised §601.2(a). In addition, we have removed any reference to §601.2(b) under §601.2.

Finally, we have also included the appropriate CDER information under 21 CFR 807.90 and 822.8. This reflects the fact that authority to use the device authorities has already been delegated to CDER officials. One investigational device exemption product was transferred from CBER to CDER in this product consolidation initiative.

Publication of this document constitutes final action under the Administrative Procedure Act (5 U.S.C. 553). FDA has determined that notice and public comment are unnecessary because this amendment to the regulations provides only a technical change to update information and addresses, and is nonsubstantive.

18. The authority citation for 21 CFR part 312 continues to read as follows:

19. Section 312.140 is revised to read as follows:

§ 312.140 Address for correspondence.

(a) A sponsor must send an initial IND submission to the Center for Research and Research (CDER) or to the Center for Biologicals Evaluation and Research (CBER), depending on the Center responsible for regulating the product as follows:

(1) For drug products regulated by CDER. Send the IND submission to the Center for Drug Evaluation and Research, Food and Drug Administration, 1401 Rockville Pike, suite 200N, Rockville, MD 20852–1448.

(2) For biological products regulated by CDER. Send the IND submission to the Center for Therapeutic Biological Products, Center for Drug Evaluation and Research, Food and Drug Administration, 12229 Wilkins Ave., Rockville, MD 20852.

(3) For biological products regulated by CBER. Send the IND submission to the Center for Therapeutic Biological Products, Center for Drug Evaluation and Research, Food and Drug Administration, 1401 Rockville Pike, suite 200N, Rockville, MD 20852–1448.

(b) On receiving the IND, the responsible Center will inform the sponsor which one of the divisions in CDER or CBER is responsible for the IND. Amendments, reports, and other correspondence relating to matters covered by the IND should be directed to the appropriate Center and division. The outside wrapper of each submission shall state what is contained in the submission, for example, “IND Application”, “Protocol Amendment”, etc.

(c) All correspondence relating to export of an investigational drug under § 312.110(b)(2) shall be submitted to the International Affairs Staff (HFY–50), Office of Health Affairs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

PART 314—APPLICATIONS FOR FDA APPROVAL TO MARKET A NEW DRUG

20. The authority citation for 21 CFR part 314 continues to read as follows:

21. Section 314.440 is amended by revising paragraph (b) to read as follows:

§ 314.440 Addresses for applications and abbreviated applications.

(b) Applicants shall send applications and other correspondence relating to matters covered by this part for the drug products listed below to the Document Control Center (HF–99), Center for Biologics Evaluation and Research, 1401 Rockville Pike, suite 200N, Rockville, MD 20852–1448, except applicants shall send a request for an opportunity for a hearing under § 314.110 or § 314.120 on the question of whether there are grounds for denying approval of an application to the Director, Center for Biologics Evaluation and Research (HF–1), at the same address.

(1) Ingredients packaged together with containers intended for the collection, processing, or storage of blood and blood components;

(2) Plasma volume expanders and hydroxyethyl starch for leukapheresis;

(3) Blood component processing solutions and shelf life extenders; and

(4) Oxygen carriers.

PART 600—BIological PRODUCTS:

GENERAL

22. The authority citation for 21 CFR part 600 continues to read as follows:

23. Section 600.2 is added to subpart A to read as follows:

§ 600.2 Mailing addresses.

(a) Licensed biological products regulated by the Center for Biologics Evaluation and Research (CBER). Unless otherwise stated in paragraphs (c) or (d) of this section, or as otherwise prescribed by FDA regulation, all submissions to CBER referenced in parts 600 through 680 of this chapter, as applicable, must be sent to: Document Center Control (HF–99), Center for Biologics Evaluation and Research, Food and Drug Administration, 1401 Rockville Pike, suite 200N, Rockville,
MD 20852–1448. Examples of such submissions include: Biologics license applications (BLAs) and their amendments and supplements, adverse experience reports, biological product deviation reports, fatality reports, and other correspondence. Biological products samples must not be sent to this address but must be sent to the address in paragraph (c) of this section.

(b) Licensed biological products regulated by the Center for Drug Evaluation and Research (CDER). Unless otherwise stated in paragraphs (b)(1), (b)(2), (b)(3), or (c) of this section, or as otherwise prescribed by FDA regulation, all submissions to CDER referenced in parts 600, 601, and 610 of this chapter, as applicable, must be sent to: CDER Therapeutic Biological Products Document Room, Center for Drug Evaluation and Research, Food and Drug Administration, 12229 Wilkins Ave., Rockville, MD 20852. Examples of such submissions include: BLAs and their amendments and supplements, and other correspondence.

(1) Biological Product Deviation Reporting (CDER). All biological product deviation reports required under §600.14 must be sent to: Division of Compliance Risk Management and Surveillance (HFD–330), Office of Compliance, Center for Drug Evaluation and Research, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

(2) Postmarketing Adverse Experience Reporting (CDER). All postmarketing reports required under §600.80 must be sent to: Central Document Room, Center for Drug Evaluation and Research, Food and Drug Administration, 5901–B Ammendale Rd., Beltsville, MD 20705–1266.

(3) Advertising and Promotional Labeling (CDER). All advertising and promotional labeling supplements required under §601.12(f) of this chapter must be sent to: Division of Drug Marketing, Advertising and Communication (HFD–42), Center for Drug Evaluation and Research, Food and Drug Administration, 5600 Fishers Lane, rm. 8B45, Rockville, MD 20857.

(c) Samples and Protocols for licensed biological products regulated by CBER or CDER. (1) Biological product samples and/or protocols, other than radioactive biological product samples and protocols, required under §§600.13, 600.22, 601.15, 610.2, 660.6, 660.36, or 660.46 of this chapter must be sent by courier service to: Sample Custodian (ATTN: HFM–672), Food and Drug Administration, Center for Biologics Evaluation and Research, Bldg: NLRC–B, rm. 113, 5516 Nicholson Lane, Kensington, MD 20895. The protocol(s) may be placed in the box used to ship the samples to CBER. A cover letter should not be included when submitting the protocol with the sample unless it contains pertinent information affecting the release of the lot.

(2) Radioactive biological products required under §610.2 of this chapter must be sent by courier service to: Sample Custodian (ATTN: HFM–672), Food and Drug Administration, Center for Biologics Evaluation and Research, Nicholson Lane Research Center, c/o Radiation Safety Office, National Institutes of Health, 21 Wilson Dr., rm. 107, Bethesda, MD 20892–6780.

(d) Vaccine Adverse Event Reporting System (VAERS). All VAERS reports as specified in §600.80(c) must be sent to: Vaccine Adverse Event Reporting System (VAERS), P.O. Box 1100, Rockville, MD 20849–1100.

(e) Address information for submissions to CBER and CDER other than those listed in parts 600 through 680 of this chapter are included directly in the applicable regulations.

§600.3 [Amended]
24. Section 600.3 is amended in paragraph (gg) by removing the words “to the Director, Center for Biologics Evaluation and Research,”.

§600.11 [Amended]
25. Section 600.11 is amended in paragraph (f)(6) by adding at the end of the paragraph the words “or the Director, Center for Drug Evaluation and Research” (see mailing addresses in §600.2)”.

§600.12 [Amended]
26. Section 600.12 is amended in paragraph (b)(2) by adding the words “or the Director, Center for Drug Evaluation and Research” after the words “Director, Center for Biologics Evaluation and Research”, and in paragraph (b)(3) by adding the words “or the Director, Center for Drug Evaluation and Research” after the words “Director, Center for Biologics Evaluation and Research”.

27. Section 600.13 is amended by revising the last two sentences to read as follows:

§600.13 Retention samples.

* * * Samples retained as required in this section shall be in addition to samples of specific products required to be submitted to the Center for Biologics Evaluation and Research or the Center for Drug Evaluation and Research (see mailing addresses in §600.2). Exceptions may be authorized by the Director, Center for Biologics Evaluation and Research or the Director, Center for Drug Evaluation and Research, when the lot yields relatively few final containers and when such lots are prepared by the same method in large number and in close succession.

28. Section 600.14 is amended by revising paragraph (e) to read as follows:

§600.14 Reporting of biological product deviations by licensed manufacturers.

* * * * *
(e) Where do I report under this section?

(1) For biological products regulated by the Center for Biologics Evaluation and Research (CBER), send the completed Form FDA–3486 to the Director, Office of Compliance and Biologics Quality (HFM–600) (see mailing addresses in §600.2), or an electronic filing through CBER’s Web site at http://www.fda.gov/cber/biodev/biodev.htm.

(2) For biological products regulated by the Center for Drug Evaluation and Research (CDER), send the completed Form FDA–3486 to the Division of Compliance Risk Management and Surveillance (HFD–330) (see mailing addresses in §600.2). CDER does not currently accept electronic filings.

(3) If you make a paper filing, you should identify on the envelope that a biological product deviation report (BPDFR) is enclosed.

§600.22 [Amended]
29. Section 600.22 is amended in paragraph (e) by adding the words “or the Director, Center for Drug Evaluation and Research (see mailing addresses in §600.2) after the words “Director, Center for Biologics Evaluation and Research”.

30. Section 600.80 is amended by revising paragraphs (c) introductory text and (f)(4) to read as follows:

§600.80 Postmarketing reporting of adverse experiences.

* * * * *

(c) Reporting requirements. The licensed manufacturer shall report to FDA adverse experience information, as described in this section. The licensed manufacturer shall submit two copies of each report described in this section for nonvaccine biological products to the Center for Biologics Evaluation and Research (HFM–210), or to the Center for Drug Evaluation and Research (see mailing addresses in §600.2). Submit all vaccine adverse experience reports to: Vaccine Adverse Event Reporting...
System (VAERS) (see mailing addresses in § 600.2). FDA may waive the
requirement for the second copy in
appropriate instances.

§ 600.81 Distribution reports.

The licensed manufacturer shall
submit to the Center for Biologics
Evaluation and Research or the Center
for Drug Evaluation and Research (see
mailing addresses in § 600.2),
information about the quantity of the
product distributed under the biologics
license, including the quantity
distributed to distributors. * * *

PART 601—LICENSES

§ 601.6 Suspension of license.

(a) General. To obtain a biologics
license under section 351 of the Public
Health Service Act for any biological
product, the manufacturer shall submit
an application to the Director, Center for
Biologics Evaluation and Research or
the Director, Center for Drug Evaluation
and Research (see mailing addresses in
§ 600.2 of this chapter), on forms
prescribed for such purposes, and shall
submit data derived from nonclinical
laboratory and clinical studies which
demonstrate that the manufactured
product meets prescribed requirements
of safety, purity, and potency; with
respect to each nonclinical laboratory
study, either a statement that the study
was conducted in compliance with the
requirements set forth in part 58 of this
chapter, or, if the study was not
conducted in compliance with such
regulations, a brief statement of the
reason for the noncompliance;
statements regarding each clinical
investigation involving human subjects
contained in the application, that it
either was conducted in compliance
with the requirements for institutional
review set forth in part 56 of this
chapter; or was not subject to such
requirements in accordance with
§ 56.104 or § 56.105, and was conducted
in compliance with requirements for
informed consent set forth in part 50 of
this chapter. * * *

(d) * * *

(4) Advertisements and promotional
labeling. Advertisements and
promotional labeling shall be submitted
to the Center for Biologics Evaluation
and Research or Center for Drug
Evaluation and Research in accordance
with the requirements set forth in
§ 314.81(b)(3)(i) of this chapter, except
that Form FDA–2567 (Transmittal of
Labels and Circulars) or an equivalent
form shall be used.

(4) General. As provided by this
section, an applicant must inform the
Food and Drug Administration (FDA)
(see mailing addresses in § 600.2 of this
chapter) about each change in the
product, production process, quality
controls, equipment, facilities,
responsible personnel, or labeling
established in the approved license
application(s). * * *

§ 601.9 [Amended]

36. Section 601.9 is amended in
paragraph (a) by adding at the end of
the paragraph the words “or the Director,
Center for Drug Evaluation and
Research”.

37. Section 601.12 is amended by
revising the first sentence of
paragraph (a)(1), by revising the second sentence of
paragraph (d)(1), and by revising
paragraph (f)(4) to read as follows:

BILLING CODE 4160–01–S

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 906

[CO–033–FOR]

Colorado Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: We are approving an amendment to the Colorado regulatory program (the “Colorado program”) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). Colorado proposed revisions to its rules concerning prime farmland, revegetation, hydrology, enforcement, topsoil, historic properties, bond release and permit requirements. The State intends to revise its program to be consistent with the corresponding Federal regulations, provide additional safeguards, clarify ambiguities, and improve operational efficiency.

EFFECTIVE DATE: March 24, 2005.

I. Background on the Colorado Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Colorado program on December 15, 1980. You can find background information on the Colorado program, including the Secretary’s findings, the disposition of comments, and conditions of approval in the December 15, 1980. Federal Register (45 FR 82173). You can also find later actions concerning Colorado’s program and program amendments at 30 CFR 906.10, 906.15, 906.16, and 906.30.
