[Docket No. FAA–2004–19911; Airspace Docket No. 04–ASO–20]

Establishment of Class E Airspace; Cocoa Beach Patrick AFB, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E4 airspace at Cocoa Beach Patrick AFB, FL. Class E4 airspace designated as an extension to Class D airspace is required when the control tower is open to contain existing Standard Instrument Approach Procedures (SIAPs) and other Instrument Flight Rules (IFR) operations at the airport. This action establishes a Class E4 airspace extension that is 6.8 miles wide and extends 7.3 miles northeast of the airport.

EFFECTIVE DATE: 0901 UTC, July 7, 2005.

Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305–5586.

SUPPLEMENTARY INFORMATION:

History

On January 21, 2005, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by establishing Class E4 airspace Cocoa Beach Patrick AFB, FL, (70 FR 3155). This action provides adequate Class E4 airspace for IFR operations at Cocoa Beach Patrick AFB. Class E airspace designations for airspace areas designated as an extension to a Class D airspace area are published in Paragraph 6004 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) establishes Class E4 airspace and at Cocoa Beach Patrick AFB, FL.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is increasing the fees provided for in the agency's regulations for certifying color additives. This modification is necessary because of a general increase in all costs of operating the certification program.

The fee schedule for color additive certification is designed to cover all the costs involved in certifying batches of color additives. This includes both the cost of specific tests required by the regulations and the general costs associated with the certification program, such as costs of accounting, reviewing data, issuing certificates, and conducting research and establishment inspections.

Section 721(e) of the act (21 U.S.C. 379(e)) requires that fees necessary to provide, maintain, and equip an adequate color additive certification program be specified in agency regulations. The current fee schedule specified in the regulations became effective in 1994. Since 1994, the costs of the certification program significantly increased as a result of escalating staff payroll, rent and facility charges, as well as general operational expenses including equipment.

As is evidenced by the increased costs incurred since 1994, the current fee schedule is insufficient to provide, equip, and maintain an adequate certification service. Therefore, an immediate increase is necessary. All cost estimates are described in the “2003 Color Certification Fee Study.” A copy of this document is on file at the Division of Dockets Management (see **ADDRESSES**).

II. Effective Date

The agency is issuing this amendment as an interim final rule effective (see **DATES**). The establishment of fees necessary to provide, equip, and maintain an adequate certification service for colors has been mandated by Congress under section 721(e) of the act. As certification services are provided to industry directly by FDA, the setting of a fee schedule to pay for these services is a matter particularly within the purview and expertise of the agency. The fees established by this regulation have been based on cost accounting methods using data compiled by the agency. Increasing the fees by \$0.05 per pound will ensure the viability of the certification program and offset the increased costs of maintaining this program. The fee for straight colors including lakes will be \$0.35 per pound (a \$0.05 per pound increase) with a minimum fee of \$224. There are similar increases in fees for repacks of certified
