SUPPLEMENTARY INFORMATION:

Description of Information Collection

Title: Report of Acreage for the Noninsured Crop Disaster Assistance Program (NAP).

OMB Number: 0560-0004.

Expiration Date: April 30, 2005.

Type of Request: Extension with revision.

Abstract: NAP provides financial assistance to producers who have suffered a production loss of an eligible crop or were prevented from planting an eligible crop as a result of natural disasters. Eligible crops are commercial crops or other agricultural commodities for which catastrophic risk protection under 7 U.S.C. 1508(b) is not available and that are produced for food or fiber; and includes floricultural, ornamental nursery, and Christmas tree crops, turfgrass sod, seed crops, aquaculture (including ornamental fish), sea grass and sea oats, and industrial crops. The information collected for the administration of NAP includes identities of the crops and commodities (including species, type, variety, etc.), practices, intended uses, planting patterns, and predominant species of forage vegetation (including intended method of harvest, i.e. mechanically harvested or grazed); dates crops were planted or planting was completed (including age of perennial crops); number of acres of each planting of the eligible crop in which the producer has a share in the administrative county; number of acres intended but prevented from being planted; zero acres planted when the crop for which a NAP application for coverage was filed, is not planted; and shares and identities of all producers sharing in the crop at the time a NAP application for coverage was filed. Finally, the information collected includes the FSA farm serial number or the location of commodities not necessarily associated with an FSA farm serial number such as colonies of bees for honey production (including the number of colonies belonging to the unit); ponds and waterbeds for production of aquaculture; ornamental nursery (including the size and origin, i.e. container or field grown, of plants belonging to the unit); mushroom facilities; turfgrass sod (including the average number of square yards per acre and all unharvested acres); and trees for maple sap production (including number of eligible trees, average size and age of producing trees, and total

number of taps placed or anticipated for the tapping season). NAP operates under the regulations at 7 CFR part 1437.

Respondents: Producers.

Estimated Annual Number of Respondents: 437,250.

Estimated Annual Number of Forms per person: 1.5.

Estimated Average Time to Respond: 1.25 hours.

Estimated Total Annual Burden Hours: 601,219.

Comments are invited regarding (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden, including the validity of the methodology and assumption used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for OMB approval.

Signed in Washington, DC on March 25, 2005.

Thomas B. Hofeller,

Acting Administrator, Farm Service Agency and Executive Vice-President, Commodity Credit Corporation.
