INTERNATIONAL TRADE COMMISSION

Submission for OMB Review; Comment Request

AGENCY: International Trade Commission.

ACTION: Agency proposal for the collection of information submitted to the Office of Management and Budget (OMB) for review; comment request.

SUMMARY: In accordance with the provisions of the Paperwork Reduction

Act (44 U.S.C. Chapter 35), the Commission has submitted a proposal for the collection of information to OMB for approval. The proposed information collection is a 3-year extension of the current "generic clearance" (approved by the Office of Management and Budget under control No. 3117-0016) under which the Commission can issue information collections (specifically, producer, importer, purchaser, and foreign producer questionnaires and certain institution notices) for the following types of import injury investigations: antidumping duty, countervailing duty, escape clause, NAFTA safeguard, market disruption, and "interference with programs of the USDA."

DATES: Written comments and recommendations for the proposed information collection should be submitted to OMB within 30 days of the date this notice appears in the **Federal Register**. Comments should be sent to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Copies of the proposed information collection proposal can be obtained from Debra Baker, Office of Investigations, U.S. International Trade Commission (telephone no. 202-205-3180; e-mail Debra.Baker@usitc.gov). General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

SUPPLEMENTARY INFORMATION: (1) The proposed information collection consists of five basic forms, namely the *Sample Producers'*, *Sample Importers'*, *Sample Purchasers'*, and *Sample Foreign Producers' questionnaires* (separate forms are provided for questionnaires issued for investigations and five-year reviews) and *Sample Notice of Institution for Five-Year Reviews*. The types of items contained within the questionnaires and institution notice are largely determined by statute. Actual questions formulated for use in a specific investigation depend upon such factors as the nature of the industry, the relevant issues, the ability of respondents to supply the data, and the availability of data from secondary sources.

(2) The information collected through questionnaires issued under the generic clearance for import injury investigations are consolidated by Commission staff and form much of the statistical base for the Commission's determinations. Affirmative Commission determinations in antidumping and countervailing duty
