INTERNATIONAL TRADE COMMISSION

Submission for OMB Review; Comment Request

AGENCY: International Trade Commission.

ACTION: Agency proposal for the collection of information submitted to the Office of Management and Budget (OMB) for review; comment request.

SUMMARY: In accordance with the provisions of the Paperwork Reduction

Act (44 U.S.C. Chapter 35), the Commission has submitted a proposal for the collection of information to OMB for approval. The proposed information collection is a 3-year extension of the current "generic clearance" (approved by the Office of Management and Budget under control No. 3117-0016) under which the Commission can issue information collections (specifically, producer, importer, purchaser, and foreign producer questionnaires and certain institution notices) for the following types of import injury investigations: antidumping duty, countervailing duty, escape clause, NAFTA safeguard, market disruption, and "interference with programs of the USDA."

DATES: Written comments and recommendations for the proposed information collection should be submitted to OMB within 30 days of the date this notice appears in the **Federal Register**. Comments should be sent to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Copies of the proposed information collection proposal can be obtained from Debra Baker, Office of Investigations, U.S. International Trade Commission (telephone no. 202-205-3180; e-mail Debra.Baker@usitc.gov). General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

SUPPLEMENTARY INFORMATION: (1) The proposed information collection consists of five basic forms, namely the *Sample Producers'*, *Sample Importers'*, *Sample Purchasers'*, and *Sample Foreign Producers' questionnaires* (separate forms are provided for questionnaires issued for investigations and five-year reviews) and *Sample Notice of Institution for Five-Year Reviews*. The types of items contained within the questionnaires and institution notice are largely determined by statute. Actual questions formulated for use in a specific investigation depend upon such factors as the nature of the industry, the relevant issues, the ability of respondents to supply the data, and the availability of data from secondary sources.

(2) The information collected through questionnaires issued under the generic clearance for import injury investigations are consolidated by Commission staff and form much of the statistical base for the Commission's determinations. Affirmative Commission determinations in antidumping and countervailing duty

investigations result in the imposition of additional duties on imports entering the United States. If the Commission makes an affirmative determination in a five-year review, the existing antidumping or countervailing duty order will remain in place. The data developed in escape-clause, market disruption, and interference-with-USA-program investigations (if the

Commission finds affirmatively) are used by the President/U.S. Trade Representative to determine the type of relief, if any, to be provided to domestic industries. The submissions made to the Commission in response to the notices of institution of five-year reviews form the basis for the Commission's determination of whether a full or expedited review should be conducted.

(3) Likely respondents consist of businesses (including foreign businesses) or farms that produce, import, or purchase products under investigation. Estimated total annual reporting burden for the period July 2005–June 2008 that will result from the collections of information is presented below.

TABLE 1.—PROJECTED ANNUAL BURDEN DATA, BY TYPE OF INFORMATION COLLECTION, JULY 2005–JUNE 2008

Item	Producer questionnaires	Importer questionnaires	Purchaser questionnaires	Foreign producer questionnaires	Institution notices for 5-year reviews	Total
Estimated burden hours imposed annually for July 2005–June 2008						
Number of respondents	952	1,370	1,070	814	61	4,267
Frequency of response	1	1	1	1	1	1
Total annual responses	952	1,370	1,070	814	61	4,267
Hours per response	52.7	38.5	26.3	50.6	14.8	40.6
Total hours	50,170	52,745	28,141	41,188	904	173,148

(4) Responses to the questionnaires are mandatory. No record-keeping burden is known to result from the proposed collections of information.

Issued: April 12, 2005.

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.

States at less than fair value (LTFV). With regard to U.S. imports from China, the Commission also makes a negative finding with regard to critical circumstances.

Background

The Commission instituted these investigations effective February 27, 2004, following receipt of a petition filed with the Commission and Commerce by US Magnesium Corp. ("US Magnesium"), Salt Lake City, UT; the United Steelworkers of America, Local 8319, Salt Lake City, UT; and the Glass, Molders, Pottery, Plastics & Allied Workers International, Local 374, Long Beach, CA. The final phase of these investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of magnesium from China and Russia were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 21, 2004 (69 FR 61860). The hearing was held in Washington, DC, on February 23, 2005, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on April 11,

2005. The views of the Commission are contained in USITC Publication 3763 (April 2005), entitled Magnesium from China and Russia: Investigation Nos. 731–TA–1071 and 1072 (Final).
