

antidumping duty margins as listed below. The "PRC-wide" rate applies to all exporters of subject merchandise not specifically listed. The weighted-average dumping margins are as follows:

MAGNESIUM METAL FROM THE PRC

Manufacturer/exporter	Weighted-average margin percent
Tianjin	49.66
Guangling	49.66
PRC-Wide Rate*	141.49

*This is not a separate rate; the RSM⁴ companies and Jiangsu Metals are subject to the PRC-wide rate.

This notice constitutes the antidumping duty order with respect to magnesium metal from the PRC pursuant to section 736(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room B-099 of the main Commerce building, for copies of an updated list of antidumping duty orders currently in effect.

This order is published in accordance with section 736(a) of the Act and 19 CFR 351.211.

Dated: April 12, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-821-819]

Notice of Antidumping Duty Order: Magnesium Metal From the Russian Federation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of

⁴In the preliminary determination, we determined that the following companies were collapsed members of the RSM group of companies for the purposes of this investigation: Nanjing Yunhai Special Metals Co., Ltd. ("Yunhai Special"), Nanjing Welbow Metals Co., Ltd. ("Welbow"), Nanjing Yunhai Magnesium Co., Ltd. ("Yunhai Magnesium"), Shanxi Wenxi Yunhai Metals Co., Ltd. ("Wenxi Yunhai"). See Memorandum to Laurie Parkhill, Director, Office 8, NME/China Group, from Laurel LaCivita, Senior Case Analyst, through Robert Bolling, Program Manager: *Antidumping Duty Investigation of Magnesium Metal from the People's Republic of China: Affiliation and Collapsing of Members of the RSM Group and its Affiliated U.S. Reseller, Toyota Tsusho America, Inc.*, dated September 24, 2004.

Commerce (the Department) and the U.S. International Trade Commission (ITC), the Department is issuing an antidumping duty order on magnesium metal from the Russian Federation (Russia). On April 11, 2005, the ITC notified the Department of its affirmative determination of injury to a U.S. industry (*Magnesium from China and Russia*, Investigations Nos. 731-TA-1071 and 1072 (Final), Publication 3763, April 2005).

EFFECTIVE DATE: April 15, 2005.

FOR FURTHER INFORMATION CONTACT:

Mark Hoadley, Kimberley Hunt, or Joshua Reitze at (202) 482-3148, (202) 482-1272, and (202) 482-0666, respectively; AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION

Background

The final determination in this investigation was published on February 24, 2005. See *Magnesium Metal From the Russian Federation: Notice of Final Determination of Sales at Less Than Fair Value*, 70 FR 9041 (February 24, 2005) (*Final Determination*). An amended final determination was published on March 29, 2005, to correct ministerial errors which occurred in the calculation of the rates as published in the *Final Determination*. See *Magnesium Metal From the Russian Federation: Notice of Amended Final Determination of Sales at Less Than Fair Value*, 70 FR 15837 (March 29, 2005) (*Amended Final Determination*). In the *Amended Final Determination*, the Department amended the rate of one respondent as well as the all others' rate.

Scope of the Order

The merchandise covered by this order is magnesium metal (also referred to as magnesium), which includes primary and secondary pure and alloy magnesium metal, regardless of chemistry, raw material source, form, shape, or size. Magnesium is a metal or alloy containing by weight primarily the element magnesium. Primary magnesium is produced by decomposing raw materials into magnesium metal. Secondary magnesium is produced by recycling magnesium-based scrap into magnesium metal. The magnesium covered by this order includes blends of primary and secondary magnesium.

The subject merchandise includes the following pure and alloy magnesium

metal products made from primary and/or secondary magnesium, including, without limitation, magnesium cast into ingots, slabs, rounds, billets, and other shapes, and magnesium ground, chipped, crushed, or machined into raspings, granules, turnings, chips, powder, briquettes, and other shapes: (1) Products that contain at least 99.95 percent magnesium, by weight (generally referred to as "ultra-pure" magnesium); (2) products that contain less than 99.95 percent but not less than 99.8 percent magnesium, by weight (generally referred to as "pure" magnesium); and (3) chemical combinations of magnesium and other material(s) in which the magnesium content is 50 percent or greater, but less than 99.8 percent, by weight, whether or not conforming to an "ASTM Specification for Magnesium Alloy."

The scope of this order excludes: (1) Magnesium that is in liquid or molten form; and (2) mixtures containing 90 percent or less magnesium in granular or powder form by weight and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures, including lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluorspar, nepheline syenite, feldspar, alumina (Al₂O₃), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomite lime, and colemanite.¹

The merchandise subject to this order is currently classifiable under items 8104.11.00, 8104.19.00, 8104.30.00, and 8104.90.00 of the *Harmonized Tariff Schedule of the United States* (HTSUS). Although the HTSUS items are provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive.

Antidumping Duty Order

On April 11, 2005, in accordance with section 735(d) of the Tariff Act of 1930, as amended (the Act), the ITC notified

¹This second exclusion for magnesium-based reagent mixtures is based on the exclusion for reagent mixtures in the 2000-2001 investigations of magnesium from China, Israel, and Russia. See *Final Determination of Sales at Less Than Fair Value: Pure Magnesium in Granular Form From the People's Republic of China*, 66 FR 49345 (September 27, 2001); *Final Determination of Sales at Less Than Fair Value: Pure Magnesium From Israel*, 66 FR 49349 (September 27, 2001); *Final Determination of Sales at Not Less Than Fair Value: Pure Magnesium From the Russian Federation*, 66 FR 49347 (September 27, 2001). These mixtures are not magnesium alloys, because they are not chemically combined in liquid form and cast into the same ingot.

the Department of its final determination pursuant to section 735(b)(1)(A)(i) of the Act that an industry in the United States is materially injured by reason of less-than-fair-value imports of magnesium from Russia. Therefore, in accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (CBP) to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or the constructed export price) of the merchandise for all relevant entries of magnesium from Russia. These antidumping duties will be assessed on all entries of magnesium from Russia entered, or withdrawn from warehouse, for consumption on or after October 4, 2004, the date on which the Department published its notice of preliminary determination in the **Federal Register**. See *Notice of Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination: Magnesium Metal From the Russian Federation*, 69 FR 59197 (October 4, 2004) (*Preliminary Determination*).

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of exporters that account for a significant proportion of the Russian exports of subject merchandise, we extended the four-month period to no more than six months. See *Preliminary Determination*. In this investigation, the six-month period beginning on the date of the publication of the *Preliminary Determination* ended on April 1, 2005. Furthermore, section 737 of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination. Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of magnesium from Russia entered, or withdrawn from warehouse, for consumption on or after April 2, 2005, and before the date of publication of the ITC's final injury determination in the **Federal Register**. Suspension of liquidation will continue on or after this date.

Effective on the date of publication of the ITC's final affirmative injury

determination, CBP officers must require, at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins as noted below. The all others' rate applies to all manufacturers and exporters of subject merchandise not specifically listed. The weighted-average dumping margins are as follows:

Manufacturer/exporter	Margin (percent)
JSC AVISMA Titanium-Magnesium Works	21.71
Solikamsk Magnesium Works ..	18.65
All Others'	21.01

Pursuant to section 736(a) of the Act, this notice constitutes the antidumping duty order with respect to magnesium metal from Russia. Interested parties may contact the Department's Central Records Unit, Room B-099 of the main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect.

This order is issued and published in accordance with section 736(a) of the Act and 19 CFR 351.211.

Dated: April 12, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Announcement of a Meeting to Explore Feasibility of Establishing a NIST/ Industry Consortium on Gene Expression Metrology

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of public meeting.

SUMMARY: The National Institute of Standards and Technology (NIST) invites interested parties to attend a pre-consortium meeting on May 16, 2005 to be held on the NIST campus in Boulder, Colorado. The goal of the one-day meeting is to evaluate industry interest in creating a NIST/industry consortium focused on gene expression metrology. The goals of such a consortium would include the development of measurement methods of known quality for microarray gene expression results. The consortium would be supervised and administered by NIST. Consortium research and development would be

conducted by NIST staff members along with at least one technical representative from each participating member company. Membership in the Consortium is open to manufacturers of complete microarray gene expression systems (*i.e.* systems which include all components required to measure a genome-wide expression profile from isolated RNA). Consortium Members will be required to provide the NIST staff members with a complete system representative of their technology platform to support measurement and standards development. The initial term of the consortium is intended to be three years.

DATES: The meeting will take place on May 17, 2005, at 8 a.m. to 5 p.m. Interested parties should contact NIST to confirm their interest at the address, telephone number or FAX number shown below.

ADDRESSES: The meeting will take place at the National Institute of Standards and Technology (NIST), 325 Broadway Room 4550, Boulder, Colorado.

FOR FURTHER INFORMATION CONTACT: Marc Salit, Advanced Chemical Science Laboratory, Stop 8310, National Institute of Standards and Technology (NIST), Gaithersburg, MD 20899-8310. Telephone: (301) 975-3646; FAX: 301 975-5449; e-mail: salit@nist.gov.

SUPPLEMENTARY INFORMATION: Any program undertaken will be within the scope and confines of The Federal Technology Transfer Act of 1986 (Pub. L. 99-502, 15 U.S.C. 3710a), which provides federal laboratories including NIST, with the authority to enter into cooperative research agreements with qualified parties. Under this law, NIST may contribute personnel, equipment, and facilities but no funds to the cooperative research program. This is not a grant program.

Dated: April 8, 2005.

Hratch G. Semerjian,

Acting Director.
