SUPPLEMENTARY INFORMATION: The Department of Homeland Security (DHS), Office of Inspector General (OIG) is establishing a new system of records within OIG Headquarters under the Privacy Act of 1974 (5 U.S.C. 552a).

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses and disseminates personally identifiable information. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual. Individuals may request their own records that are maintained in a system of records in the possession or under the control of DHS-OIG by complying with DHS Privacy Act regulations, 6 CFR part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency recordkeeping practices transparent, to notify individuals regarding the uses to which personally identifiable information is put, and to assist the individual to more easily find such files within the Agency.

OIG is therefore publishing this system of records to cover training records relating to OIG auditors'

continuing professional education. The system is maintained for the purpose of tracking training completed by OIG auditors to ensure that OIG has met the requirements for continuing professional education under the Government Accountability Office, Government Auditing Standards, section 3.45, at 55 (2003)(GAO-03-673G; the "Yellow Book"). The Yellow Book standards require auditors performing work under generally accepted government auditing standards (GAGAS) to maintain their professional competence through continuing professional education (CPE). The system of records being published today will allow OIG to track training information and ensure these standards are met.

In accordance with 5 U.S.C. 552a(r), OIG has provided a report of this new system of records to the Office of Management and Budget (OMB) and to the Congress.
