

extends to the Tier Two and Three sites as well. For the Tier Two and Three sites, emphasis would be placed on protecting significant resource values through cooperation with public and private landowners to encourage compatible uses. Only if owners offered to sell and State, local, or private entities had funds available, would acquisition of fee or easement be considered.

The VCT Initiative would be established through congressional action with an overall management entity/advisory committee supplemented with working task forces from each State.

The draft Environmental Impact Statement for the VCT was released to the public on April 26, 2004. The public comment period ended June 24, 2004. No substantive comments were received on the draft document; consequently, no changes were made to the alternatives or environmental consequences.
