DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Government Finance Forms.

Form Number(s): F-5, F-11, F-12, F-13, F-25, F-28, F-29, F-32, F-42.

Agency Approval Number: 0607-0585.

Type of Request: Revision of a currently approved collection.

Burden: 31,787 hours.

Number of Respondents: 10,159.

Avg Hours per Response: 3 hours and 7 minutes.

Needs and Uses: The U.S. Census Bureau requests continued OMB authorization for the forms necessary to carry out the information collection associated with both the Annual Survey of State and Local Government Finance and the finance phase of the quinquennial census of governments. In both the census and annual surveys, equivalent data are collected, except for the F-11 and F-12 public employee-retirement system forms. For these forms, in the Census year, an additional organizational and system coverage section is included.

The Census Bureau incorporates the data collected on these forms into its governmental finance program. This program has facilitated the dissemination of comprehensive and comparable governmental finance statistics since 1902. This program is the only known comprehensive source of state and local government finance data collected on a nationwide scale using uniform definitions, concepts, and procedures. Governmental finance statistics are widely used by Federal, state, and local legislators, policy

makers, administrators, analysts, economists, and researchers to follow the changing characteristics of the government sector of the economy. Journalists, teachers, and students rely on these data as well.

The Census Bureau provides its governmental finance data annually to the Bureau of Economic Analysis (BEA) for use in measuring and developing estimates of the government sector of the economy in its National Income and Product Accounts. The Census Bureau also provides these data to the Federal Reserve Board for constructing its Flow of Funds Accounts.

Affected Public: State, local or Tribal governments.

Frequency: Annually and quinquennially.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, section 161, of the United States Code requires the Secretary of Commerce to conduct a census of governments every fifth year. Section 182 allows the Secretary to conduct annual surveys in other years.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer either by fax (202-395-7245) or e-mail (susan_schechter@omb.eop.gov).

Dated: April 19, 2005.

Annual Retail Trade Survey

ACTION: Proposed collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information

DATES: Written comments must be submitted on or before June 21, 2005.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at DHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Nancy Piesto, U.S. Census Bureau, Room 2632-FOB 3, Washington, DC 20223-6500, at (301) 763-7872.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Annual Retail Trade Survey (ARTS) provides a sound statistical basis for the formation of policy by other government agencies. It provides continuing and timely national statistics on retail trade and accommodation and food services, augmenting the period between economic censuses, and is a continuation of similar retail trade surveys conducted each year since 1951. The data collected—annual sales and other operating receipts, e-commerce sales and other operating receipts, purchases, end-of-year inventories, and accounts receivables—are applicable to a variety of public and business needs. Data items collected for accommodation and food services are annual receipts and e-commerce receipts. The estimates of purchased merchandise will be used to estimate trade margins on commodities sold in calculating the personal consumption portion of the Gross Domestic Product (GDP) by the Bureau of Economic Analysis (BEA). Accounts receivable balances are used by the Federal Reserve Board in measuring consumer credit. Businesses use these estimates to determine market share and to perform other analysis.

The ARTS sample consists of all firms operating retail establishments within the U.S. whose probability of selection is determined by sales size. Estimates developed in the ARTS are used to benchmark the monthly sales and inventories series. The firms canvassed in this survey are not required to maintain additional records since carefully prepared estimates are acceptable if book figures are not available.

Since the last OMB submission the ARTS no longer uses preprinted pin-fed

forms. Beginning with the 2002 survey year, forms are printed and labeled, as needed, using a print-on-demand system (Docuprint). There are several benefits in using this type of system. We no longer need to purchase or store the large quantity of forms required. Also, using Docuprint allows us to print the form and label at the same time and gives us the flexibility to print special instructions where needed.

Estimates produced from the Annual Retail Trade Survey are published on the North American Industry Classification System (NAICS) basis.

For the 2005 data year, we will introduce a new sample. As part of the process we will request two years of data resulting in a response burden time of 56 minutes. In 2006, response burden is expected to decrease to 37 minutes, as only one year of data will be requested.

II. Method of Collection

We collect this information by mail, fax, and telephone follow-up.
