This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications, and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Privacy Act: System of Records

AGENCY: Office of the Secretary, Agriculture.

ACTION: Notice of proposed revision of Privacy Act System of Records.

EFFECTIVE DATE: This notice will be adopted without further publication in the Federal Register on June 27, 2005, unless modified by a subsequent notice to incorporate comments received from the public. Although the Privacy Act requires only that the portion of the system which describes the "routine uses" of the system be published for comment, USDA invites comment on all portions of this notice. Comments must be received by the contact person listed below on or before the proposed routine uses will become effective as proposed without further notice on May 26, 2005.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: The OIG proposes revising existing routine use by deleting one half of one sentence of an existing routine use to avoid referring to another Agency’s Regulations and to add two routine uses to the routine uses currently applicable to OIG’s systems of records to permit disclosure under two systems of records. The first addition is for purposes of internal and external peer reviews of the OIG’s Office of Investigations specifically relating to the systems of USDA/OIG–3: Investigative Files and Automated Investigative Indices System, and USDA/OIG–4: IG Hotline Complaint Records. The second routine use also applies to these same systems of records to allow disclosure of these records to the President’s Council on Integrity and Efficiency (PCIE) and other Federal agencies, when these entities conduct an audit or investigation pursuant to Executive Order 12993. The current language of routine use numbered 13 in both systems of records is as follows: (13) Relevant information from a system of records may be disclosed to the news media and general public where there exists a legitimate public interest, e.g., to assist in the location of fugitives, to provide notification of arrests, where necessary for protection from imminent threat of life or property, or in accordance with guidelines set out by the Department of Justice in 28 CFR 50.2.

The proposed revision deletes the last part of the sentence, to end the sentence after the word "property." Thus, the end of the sentence that refers to the Department of Justice guidelines and its regulatory citation is deleted. The revised routine use will then read as follows: (13) Relevant information from a system of records may be disclosed to the news media and general public where there exists a legitimate public interest, e.g., to assist in the location of fugitives, to provide notification of arrests, or where necessary for protection from imminent threat of life or property.

The first added routine use is proposed to reflect an amendment to the Inspector General Act of 1978, pursuant to VIII, Subtitle B, Section 812(7) of the Department of Homeland Security Act of 2002, which reads as follows: “To ensure the proper exercise of the law enforcement powers authorized by this subsection, the OIG described under paragraph (3) shall, not later than 180 days after the date of enactment of this subsection, collectively enter into a memorandum of understanding to establish an external review process for ensuring that adequate internal safeguards and management procedures continue to exist within each Office and within any Office that later receives an authorization under paragraph (2). The review process shall be established in consultation with the Attorney General, who shall be provided with a copy of the memorandum of understanding that established the review process. Under the review process, the exercise of the law enforcement powers by each Office of Inspector General shall be reviewed periodically by another Office of Inspector General or by a committee of Inspectors General. The results of each review shall be communicated in writing to the applicable Inspector General and to the Attorney General.”

The second added routine use is proposed to enable an OIG to assist other OIGs with internal audits or investigations required by the PCIE under Executive Order 12993, but which cannot or should not be performed by the staff of a particular OIG that would normally conduct the investigation, and to allow reports to be reviewed by the PCIE regarding actions taken with respect to these investigations. This routine use will allow the OIG to conduct assigned audits or investigations under Executive Order 12993 and to report its findings, recommendations and actions taken to the PCIE. It will also allow the release of information to other agencies conducting internal audits or investigations of the OIG.

The text of the addition of the added routine uses (to be numbered 14 and 15) to systems USDA/OIG–3 and USDA/OIG–4 will read as follows: (14) A record may be disclosed to any official charged with the responsibility to conduct qualitative assessment reviews or peer reviews of internal safeguards and management procedures employed in investigative operations. This disclosure category includes members of the President’s Council on Integrity and Efficiency and officials and administrative staff within their investigative chain of command, as well as authorized officials of the Department of Justice and the Federal Bureau of Investigation.

In the event that these records respond to an audit, investigation or review, which is conducted pursuant to
an authorizing law, rule or regulation, and in particular those conducted at the request of the President’s Council on Integrity and Efficiency (“PCIE”) pursuant to Executive Order 12993, the records may be disclosed to the PCIE and other Federal agencies, as necessary.

All other aspects of OIG’s systems of records remain unchanged and are as published, other than systems of records’ locations, which are updated as set forth in Attachment A. A “Report on New System,” required by 5 U.S.C. 552a(r), as implemented by OMB Circular A–130, was sent to the Chairman, Committee on Homeland Security and Governmental Affairs, United States Senate; the Chairman, Committee on Government Reform, House of Representatives; and the Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget on April 19, 2005.

Dated: April 19, 2005.

Mike Johanns,
Secretary of Agriculture.

USDA/OIG–3

SYSTEM NAME:
Investigative Files and Automated Investigative Indices Systems, USDA/OIG.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:
In addition to those disclosures generally permitted under subsection (b) of the Privacy Act of 1974, 5 U.S.C. 552a(b), records may also be disclosed routinely to other users under the following circumstances:

(13) Relevant information from a system of records may be disclosed to the news media and general public where there exists a legitimate public interest, e.g., to assist in the location of fugitives, to provide notification of arrests, or where necessary for protection from imminent threat of life or property.

(14) A record may be disclosed to any official charged with the responsibility to conduct qualitative assessment reviews or peer reviews of internal safeguards and management procedures employed in investigative operations. This disclosure category includes members of the President’s Council on Integrity and Efficiency and officials and administrative staff within their investigative chain of command, as well as authorized officials of the Department of Justice and the Federal Bureau of Investigation.

(15) In the event that these records respond to an audit, investigation or review, which is conducted pursuant to an authorizing law, rule or regulation, and in particular those conducted at the request of the President’s Council on Integrity and Efficiency (“PCIE”) pursuant to Executive Order 12993, the records may be disclosed to the PCIE and other Federal agencies, as necessary.

SYSTEM LOCATION:
In the headquarters offices of the U.S. Department of Agriculture (USDA), Office of Inspector General (OIG) and in the Jamie L. Whitten Federal Building, 1400 Independence Avenue, SW, Washington, DC 20250, and in the following OIG regional offices and sub offices, as listed in Attachment A.

Attachment A

OIG Regional Offices
Northeast Region/Investigations and Northeast Region/Audit, 5601 Sunnyside Avenue, Suite 2–2230, Beltsville, Maryland 20705–5300
Southeast Region, 401 W. Peachtree Street NW., Room 2329 (Investigations), Room 2328 (Audit), Atlanta, Georgia 30308
Midwest Region, 111 N. Canal Street, Suite 1130, Chicago, Illinois 60606–7295
Southwest Region, 101 South Main, Room 311 (Investigations), Room 324 (Audit), Temple, Texas 76501
Great Plains Region, 8930 Ward Parkway, Suite 3016, Kansas City, Missouri 64114
Western Region, 75 Hawthorne Street, Suite 200, San Francisco, California 94105–3920

OIG/Audit Sub Offices
Mercer Corporate Park, 310 Corporate Boulevard, Robbinsville, New Jersey 08691–1598
One Credit Union Place, Suite 350, Harrisburg, Pennsylvania 17110–2992

Agricultural Marketing Service

[Docket Number FV–05–305]

United States Standards for Grades of Globe Artichokes

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice.

SUMMARY: The Agricultural Marketing Service (AMS), prior to undertaking research and other work associated with revising official grade standards, is soliciting comments on the possible revisions to the United States Standards for Grades of Globe Artichokes. At a 2003 meeting with the Fruit and Vegetable Industry Advisory Committee, AMS was asked to review all the fresh fruit and vegetable grade standards for usefulness in serving the industry. As a result, AMS has identified that the standard may need to be revised to reflect current marketing practices. AMS is seeking comments regarding any revisions that may be necessary to better serve the industry.

DATES: Comments must be received by June 27, 2005.

ADDRESSES: Interested persons are invited to submit written comments to the Standardization Section, Fresh Products Branch, U.S. Department of Agriculture, 1400 Independence Ave. SW., Room 1661 South Building, Stop 0240, Washington, DC 20250–0240; Fax (202) 720–8871; e-mail FPB.DocketClerk@usda.gov. Comments should make reference to the dates and page number of this issue of the Federal Register and will be made available for public inspection in the above office during regular business hours. The United States Standards for Grades of Globe Artichokes is available either at the above address or by accessing the Fresh Products Branch Web site at: http://www.ams.usda.gov/standards/stanfvy.htm.

FOR FURTHER INFORMATION CONTACT: David L. Priester, at the above address or call (202) 720–2185; e-mail David.Priester@usda.gov.

SUPPLEMENTARY INFORMATION: Section 203(c) of the Agricultural Marketing Act of 1946 (7 U.S.C. 1621–1627), as amended, directs and authorizes the Secretary of Agriculture “To develop and improve standards of quality, condition, quantity, grade and packaging and recommend and demonstrate such standards in order to encourage uniformity and consistency in commercial practices.” AMS is committed to carrying out this authority in a manner that facilitates the marketing of agricultural commodities and makes copies of official standards available upon request. The United States Standards for Grades of Fruits and Vegetables not connected with Federal Marketing Orders or U.S. Import Requirements no longer appear in the Code of Federal Regulations, but are maintained by USDA/AMS/Fruit and Vegetable Programs.

AMS is considering whether to revise the voluntary United States Standards for Grades of Globe Artichokes using procedures that appear in Part 36, Title 7 of the Code of Federal Regulations (7 CFR part 36).

Background

At a 2003 meeting with the Fruit and Vegetable Industry Advisory Committee, AMS was asked to review all the fresh fruit and vegetable grade standards for usefulness in serving the industry. As a result, AMS has identified the United States Standards for Grades of Globe Artichokes for possible revision. These standards were last revised in 1969. As a result, AMS has identified that the standard may need to be revised to reflect current marketing trends. However, prior to undertaking detailed work to develop proposed revisions to the standards, AMS is seeking comments on whether any revisions are necessary to better serve the industry and the probable impact of any revisions on distribution, processors, and growers.

This notice provides for a 60-day comment period for interested parties to comment on whether any changes are necessary to the standards. Should AMS conclude that there is a need for any revisions of the standards, the proposed revisions will be published in the Federal Register with a request for comments in accordance with 7 CFR part 36.

Dated: April 21, 2005.

Kenneth C. Clayson,
Acting Administrator, Agricultural Marketing Service.
