

application of 30 CFR 75.1100-2(e)(2) (Quantity and location of firefighting equipment) to its Cherry Tree Mine (MSHA I.D. No. 36-09224) located in Clearfield County, Pennsylvania. The petitioner requests a modification of the existing standard to permit the use of an alternative method of compliance for firefighting equipment at temporary electrical installations. The petitioner proposes to use two (2) fire extinguishers or one fire extinguisher of twice the required capacity at all temporary electrical installations in lieu of one fire extinguisher and 240 pounds of rock dust. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

5. FMC Corporation

[Docket No. M-2005-001-M]

FMC Corporation, Box 872, Green River, Wyoming 82935 has filed a petition to modify the application of 30 CFR 57.22305 (Approved equipment (III mines)) to its FMC Trona Mine (MSHA I.D. No. 48-00152) located in Sweetwater County, Wyoming. The petitioner requests a modification of the existing standard to permit the use of a portable Leica DISTO laser distance meter in by the last open bread or face areas of the mine. The petitioner requests the use of an alternative method so that the equipment in areas covered by 30 CFR 57.22305 can be used safely. The petitioner states that examinations for methane in the mine atmosphere will be conducted prior to utilizing the laser distance meter and at a minimum every ten minutes during use; employees will complete a training form and will be instructed in the requirements for using the equipment; and that the equipment will not be operated in 1.0% or more methane. The petitioner asserts that the safety of the miners will not be reduced because ergonomic safety will be increased since the surveys will be better able to determine mining distances to the face that cannot safely be measured due to the roof being unbolted.

SUPPLEMENTARY INFORMATION: At the request of the SEC Advisory Committee on Smaller Public Companies, the

Commission is publishing this release soliciting public comments on the issues that the Committee proposes to address. The Commission announced the establishment of the Advisory Committee on December 16, 2004.

The Committee was officially established on March 23, 2005, with the filing of its Charter with Congress. The Charter provides that the Committee's objective is to assess the current regulatory system for smaller public companies under the securities laws and make recommendations for changes. The Charter directs the Committee to consider the following areas of inquiry, including the impact in each area of the Sarbanes-Oxley Act of 2002, Pub. L. 107-204, 116 Stat. 745 (July 30, 2002): (1) Frameworks for internal control over financial reporting applicable to smaller public companies, methods for management's assessment of such internal control, and standards for auditing such internal control; (2) corporate disclosure and reporting requirements and federally-imposed corporate governance requirements for smaller public companies; (3) accounting standards and financial reporting requirements applicable to smaller public companies; and (4) the process, requirements and exemptions relating to offerings of securities by smaller public companies, particularly public offerings.

In accordance with these Charter directives, the Committee approved a proposed Committee Agenda at a public meeting held on April 12, 2005. A summary of the Committee Agenda is set forth below. The full text of the Committee Agenda may be found on the Committee's Web page at <http://www.sec.gov/info/smallbus/acspc.shtml>. The Committee Agenda identifies in general terms the subjects that the Committee proposes to address. All interested parties are invited to submit their views, in writing, on any or all of the subjects identified, or on any other matter relating to the current regulatory system for smaller public companies under the securities laws that the Committee should consider addressing. The Committee specifically seeks public comment on the following questions relating to the proposed summary of the Committee Agenda:

Question 1: Are the subjects identified in the summary of the Committee Agenda the right subjects for the Committee to consider?

Question 2: Should the Committee consider subjects not identified in the summary of the Committee Agenda in order to properly fulfill its mandate?

Question 3: Should the Committee not consider some subjects identified in the
