

management and full compliance with ECA Bureau reporting requirements.

7. *Post-grant Activities*: Proposals should provide a plan for continued follow-on activity (without Bureau support) ensuring that Bureau supported programs are not isolated events.

8. *Project Evaluation*: Proposals should include a plan to evaluate the activity's success, both as the activities unfold and at the end of the program. The plan should follow the guidance given in Section IV.3d.3 above.

9. *Cost-effectiveness*: The overhead and administrative components of the proposal, including salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate.

10. *Cost-sharing*: Proposals should maximize cost-sharing through other private sector support as well as institutional direct funding contributions. Note Section III.2 above which states that proposals that clearly demonstrate significant cost sharing—with 25% of the amount requested from ECA as the preferred target—will be judged more competitive under this criterion.

11. *Value to U.S.-Partner Country Relations*: Proposed projects should receive positive assessments by the U.S. Department of State's geographic area desk and overseas officers of program need, potential impact, and significance in the partner country(ies).
