SUPPLEMENTARY INFORMATION:

History

On January 21, 2005, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to modify J-133, J-889, B-25, and A-1; and revoke J-711 in Alaska (70 FR 3156). The FAA Alaska Region determined that continued operation of the Hinchinbrook, AK, NDB was in jeopardy at its current location, and that

action was required to reconfigure the airways using the Orca Bay, AK, NDB. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received. With the exception of editorial changes, this amendment is the same as that proposed in the notice.

The Rule

The FAA is amending Title 14 Code of Federal Regulations (14 CFR) part 71 (part 71) to revoke J-711, and to modify J-133, J-889R, B-25, and A-1 in Alaska. The FAA is taking this action to remove all airways and routes off the Hinchinbrook, AK, NDB in preparation for the commissioning of the Orca Bay NDB on May 1, 2005.

Colored Federal airways and jet routes are published in paragraphs 6009(c) and paragraph 2004, respectively, of FAA Order 7400.9M dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The colored Federal airway and Alaskan VOR Federal airways listed in this document would be published subsequently in the order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
