

Manufacturing Co. (collectively, “domestic interested parties”), within the deadline specified in section 351.218(d)(1)(i) of the Department’s regulations. Domestic interested parties claimed interested party status under section 771(9)(C) of the Act as U.S. producers of the subject merchandise. The Department notes that Tyler Pipe is a U.S. producer of light castings only and is not an interested party in this proceeding.

The Department received a complete response from the domestic interested parties within the deadline specified in the Department’s regulations under section 351.218(d)(3)(i). However, the Department received no responses from respondent interested parties as required in section 351.218(d)(3)(i) of the Department’s regulations. As a result, the Department conducted an expedited sunset review pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(C)(2) of the Department’s regulations.

Scope of the Order

The merchandise subject to the antidumping duty order consists of certain iron construction castings from Canada, limited to manhole covers, rings, and frames, catch basin grates and frames, clean-out covers and frames used for drainage or access purposes for public utility, water and sanitary systems, classifiable as “heavy” castings under Harmonized Tariff Schedule (“HTS”) item number 7325.10.0010. These articles must be of cast iron, not alloyed, and not malleable.

On September 23, 1998, the Department issued final results of a changed circumstances review, in which the Department revoked the order with respect to “light” castings. As a result, only one HTS item number applies to this order. That number, HTS item number 7325.10.000, is provided for convenience and customs purposes only. The written description remains dispositive.

Analysis of Comments Received

All issues raised in this case are addressed in the “Issues and Decision Memorandum” (“Decision Memo”) from Ronald K. Lorentzen, Acting Director, Office of Policy, Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated May 2, 2005, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail if the order were revoked. Parties can find a complete discussion

of all issues raised in this sunset review and the corresponding recommendations in this public memo, which is on file in room B-099 of the main Department Building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading “May 2005.” The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Review

We determine that revocation of the antidumping duty order on iron castings from Canada would likely lead to continuation or recurrence of dumping at the following percentage weighted-average margins:

Manufacturers/Exporters/Producers	Weighted-Average Margin (Percent)
Bibby Ste. Croix Foundries, Inc.	8.60
LaPerle Foundry, Ltd	4.40
Mueller Canada, Inc.	9.80
All Others	7.50

This notice also serves as the only reminder to parties subject to administrative protective orders (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with section 351.305 of the Department’s regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: May 2, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Certain Iron Construction Castings From Brazil; Final Results of Five-Year (“Sunset”) Review of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce

SUMMARY: On October 1, 2004 the Department of Commerce (“the

Department”) initiated a sunset review of the antidumping duty order on certain iron castings (“iron castings”) from Brazil. On the basis of the notice of intent to participate, and an adequate substantive response filed on behalf of the domestic interested parties and no response from respondent interested parties, the Department conducted an expedited sunset review. As a result of this review, the Department finds that revocation of the antidumping duty order would likely lead to continuation or recurrence of dumping at the levels listed below in the section entitled “Final Results of Review.”

DATES: *Effective Date:* May 10, 2005.

FOR FURTHER INFORMATION CONTACT: Martha V. Douthit, Office of Policy, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-5050.

SUPPLEMENTARY INFORMATION:

Background

On November 1, 2004, the Department initiated a sunset review of the antidumping duty order on iron castings from Brazil pursuant to section 751(c) of the Tariff Act of 1930, as amended (“the Act”).¹ The Department received a Notice of Intent to Participate on behalf of Deeter Foundry, Inc., East Jordan Iron Works, Inc., LeBaron Foundry, Inc., Leed Foundry, Inc., Municipal Castings, Inc., Neenah Foundry Company, Tyler Pipe Company, and U.S. Foundry & Manufacturing Co. (collectively, “the domestic interested parties”), within the deadline specified in section 351.218(d)(1)(i) of the Department’s regulations. The domestic interested parties claimed interested party status under section 771(9)(C) of the Act as U.S. producers of the subject merchandise. We received a complete response from the domestic interested parties within the deadline specified in the Department’s regulations under section 351.218(d)(3)(i). However, we did not receive responses from any respondent interested parties as required in section 351.218(d)(3)(i) of the Department’s regulations. As a result, the Department conducted an expedited sunset review of this order pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(C)(2) of the Department’s regulations.

Scope of the Order

The merchandise covered by the antidumping duty order consists of certain iron construction castings from

¹ See *Initiation of Five-Year (Sunset) Reviews*, 69 FR 58890 (October 1, 2004).

Brazil, limited to manhole covers, rings, and frames, catch basin grates and frames, clean-out covers and frames used for drainage or access purposes for public utility, water and sanitary systems, classifiable as heavy castings under Harmonized Tariff Schedule (HTS) item number 7325.10.0010; and to valve, service, and meter boxes which are placed below ground to encase water, gas, or other valves, or water and gas meters, classifiable as light castings under HTS item number 7325.10.0050. The HTS item numbers are provided for convenience and customs purposes only. The written description remains dispositive.

Analysis of Comments Received

All issues raised in this case are addressed in the "Issues and Decision Memorandum" ("Decision Memo") from Ronald K. Lorentzen, Acting Director, Office of Policy, Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated May 2, 2005, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail if the order were revoked. Parties can find a complete discussion of all issues raised in this sunset review and the corresponding recommendations in this public memorandum, which is on file in room B-099 of the main Department Building. In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "May 2005." The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Review

We determine that revocation of the antidumping duty order on iron castings from Brazil would likely lead to continuation or recurrence of dumping at the following weighted-average percentage margins:

Manufacturers/Exporters/ Producers	Weighted- average margin (percent)
Fundicao Aldebara, Ltda. Aldebara	58.74
Sociedade de Metalurgia E Processos, Ltda. SOMEP	16.61
Companhia Siderurgica da Guanabara COSIGUA (for- merly Usina Siderurgica Paraende, S.A. (USIPA)	5.95
All Others	26.16

This notice also serves as the only reminder to parties subject to

administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: May 2, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Large Newspaper Printing Presses and Components Thereof, Whether Assembled or Unassembled, from Japan: Initiation of Changed Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has obtained information with respect to Tokyo Kikai Seisakusho, Ltd. (TKS), a producer/exporter of large newspaper printing presses, sufficient to warrant the self-initiation of a changed circumstances review. Interested parties are invited to submit comments, as indicated below.

EFFECTIVE DATE: May 10, 2005.

FOR FURTHER INFORMATION CONTACT: David Goldberger or Kate Johnson, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-4136 and (202) 482-4929, respectively.

SUPPLEMENTARY INFORMATION:

Background

On September 4, 1996, the Department published in the **Federal Register** an amended final determination and antidumping duty order on large newspaper printing presses and components thereof, whether assembled or unassembled, from Japan (LNPPs) (61 FR 46621). One

of the producer/exporters covered by the order was TKS. Its rate from the less-than-fair-value investigation was 56.28 percent. The Department conducted administrative reviews of TKS for the following periods: September 1, 1997 - August 31, 1998, September 1, 1998 - August 31, 1999, and September 1, 1999 - August 31, 2000. The administrative review for the 2000-2001 review period was rescinded. A zero margin was found for TKS in the 1997-1998, 1998-1999, and 1999-2000 review periods. Effective January 16, 2002, the antidumping duty order was revoked with respect to TKS (*Large Newspaper Printing Presses and Components Thereof, Whether Assembled or Unassembled, From Japan: Final Results of Antidumping Duty Administrative Review and Revocation in Part*, 67 FR 2190, (January 16, 2002)) based on the three consecutive reviews resulting in zero dumping margins (see 19 CFR 351.222(b)). On February 25, 2002, the Department revoked the antidumping duty order under a five-year sunset review pursuant to section 751(c)(3)(A) of the Tariff Act of 1930, as amended (the Act) (*Large Newspaper Printing Presses and Components Thereof, Whether Assembled or Unassembled, from Japan (A-588-837) and Germany (A-428-821): Notice of Final Results of Five-Year Sunset Reviews and Revocation of Antidumping Duty Orders*, 67 FR 8522 (February 25, 2002)).

Scope of the Changed Circumstances Review

The products covered by this changed circumstances review are large newspaper printing presses, including press systems, press additions and press components, whether assembled or unassembled, whether complete or incomplete, that are capable of printing or otherwise manipulating a roll of paper more than two pages across. A page is defined as a newspaper broadsheet page in which the lines of type are printed perpendicular to the running of the direction of the paper or a newspaper tabloid page with lines of type parallel to the running of the direction of the paper.

In addition to press systems, the scope of the review includes the five press system components. They are: (1) A printing unit, which is any component that prints in monochrome, spot color and/or process (full) color; (2) a reel tension paster (RTP), which is any component that feeds a roll of paper more than two newspaper broadsheet pages in width into a subject printing unit; (3) a folder, which is a module or combination of modules capable of
