FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

May 4, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0713.

Title: Alternative Broadcast Inspection Program (ABIP) Compliance Notification.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit and not-for-profit institutions.

Number of Respondents: 53.

Estimated Time per Response: 5 minutes (.084 hours).

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 220 hours.

Annual Cost Burden: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The ABIP is an agreement between the Federal Communications Commission's Enforcement Bureau and an entity, usually a state broadcast association, in which the entity arranges for the inspection of the broadcast station to determine compliance with FCC regulations. The inspections are conducted on a voluntary basis and the entities notify the local FCC District Office or Resident Agent office, in writing via letter of those stations that pass the ABIP inspection and have been granted a Certificate of Compliance. The FCC's Enforcement Bureau standardized the existing Alternative Broadcast Inspection Program (ABIP) in 2003 to establish a specific, uniform arrangement for the inspection of broadcast stations. This information will be used by FCC to determine which broadcast stations comply with FCC Rules and will not be subject to routine inspections conducted by the FCC's District Offices. Without this information, the FCC would not be able to determine which stations should be exempt from random inspections.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0798.

Title: FCC Application for Wireless Telecommunications Bureau Radio Service Authorization.

Form No.: FCC Form 601.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households; business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 250,520.

Estimated Time Per Response: 1.25 hours.

Frequency of Response: Recordkeeping requirement, third party disclosure requirement, and on occasion and every 10 year reporting requirements.

Total Annual Burden: 219,205 hours.

Total Annual Cost: \$50,104,000.

Privacy Act Impact Assessment: Yes.

Needs and Uses: The Commission adopted and released two rulemakings that revised this information collection. FCC 04-135 now includes the addition of radio services: Broadband Radio (formerly Multipoint Distribution Service radio service); Educational Broadband Services (formerly the VX radio service); and a new Schedule E has been created for the technical data for these services. FCC 04-23 made changes to Schedules D, I and M to items concerning the Quiet Zone. The requirements include: (1) To provide for immediate processing of applications that may implicate Quiet Zones, in the event that the applicant indicates that it has obtained consent, if required by section 1.924, of the Quiet Zone entity; (2) to clarify that applicants may provide notification to and begin coordination with Quiet Zone entities, where required, in advance of filing an application with the Commission; (3) amend section 101.31(b)(1)(v) to permit Part 101 applicants to initiate

conditional operation, provided they have obtained prior consent of the Quiet Zone entity to the extent required, and are otherwise eligible to initiate conditional operations over the proposed facility; similarly, the Bureau clarifies that, for services in which individual station licenses are not issued, licensees may initiate operations immediately upon receipt of the Quiet Zone entity's consent; and (4) to clarify that either the applicant or the applicant's frequency coordinator may notify and initiate any required coordination proceedings with the Quiet Zone entity.

Note: For purposes of simplicity, all areas implicated by section 1.924 will be referred to as "Quiet Zones." We note that the only area with the formal designation of "Quiet Zone" is the National Radio Quiet Zone, which encompasses the National Radio Astronomy Observatory and the Naval Radio Research Observatory.

The Commission uses the information provided by applicants on the FCC Form 601 to update its database and to determine where the applicant is legally, technically and financially qualified to provide licensed services and to make proper use of the frequency spectrum.
