

Potential Environmental Issues for Analysis

The DOE has tentatively identified the following environmental issues for analysis in the GTCC EIS. The list is presented to facilitate early comment on the scope of the EIS; it is not intended to be comprehensive nor to predetermine the alternatives to be analyzed or their potential impacts.

- Potential impacts to the general population and workers from radiological and non-radiological releases.
- Potential impacts, including air and water quality impacts.
- Potential transportation impacts from the shipment of GTCC radioactive waste to a disposal site.
- Potential impacts from postulated accidents.
- Potential disproportionately high and adverse effects on low-income and minority populations (environmental justice).
- Potential Native American concerns.
- Irretrievable and irreversible commitment of resources.
- Short-term and long-term land use impacts.
- Compliance with applicable Federal, state, and local requirements.
- Long-term site health and environmental impacts, including potential impacts on groundwater quality.
- Long-term site suitability, including erosion and seismicity.

EIS Process

DOE plans to issue the NOI in the fall of calendar year 2005, which will be followed by a public scoping period. DOE will announce the availability of the Draft EIS in the **Federal Register** and other media, and will provide the public, organizations, and agencies with an opportunity to submit comments. These comments will be considered and addressed in the Final EIS. DOE will issue a Record of Decision no sooner than 30 days after publication of the Environmental Protection Agency's notice of availability of the Final EIS.

Issued in Washington, DC, on May 4, 2005.

C. Russell H. Shearer,

Acting Assistant Secretary for Environment, Safety and Health.

A. How Can I Get Copies of Related Information?

1. *Docket.* EPA has established an official public docket for this action under Docket ID No. ORD-2005-0009. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Documents in the official public docket are listed in the index in EPA's electronic public docket and comment system, EDOCKET. Documents are available either electronically or in hard copy. Electronic documents may be viewed through EDOCKET. Hard copies of the draft agendas may be viewed at the Board of Scientific Counselors, Drinking Water Meetings Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the ORD Docket is (202) 566-1752.

2. *Electronic Access.* You may access this **Federal Register** document electronically through the EPA Internet under the **Federal Register** listings at <http://www.epa.gov/fedrgrstr/>.

An electronic version of the public docket is available through EDOCKET. You may use EDOCKET at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number (ORD-2005-0009).

For those wishing to make public comments, it is important to note that EPA's policy is that comments, whether submitted electronically or on paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide
