

DEPARTMENT OF HOMELAND SECURITY**Bureau of Customs and Border Protection****Agency Information Collection Activities: Arrival and Departure Record (I-94)**

AGENCY: Bureau of Customs and Border Protection, Department of Homeland Security.

ACTION: Proposed collection; comments requested.

SUMMARY: The Bureau of Customs and Border Protection (CBP) of the Department of Homeland Security has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995: Arrival and Departure Record (I-94). This is a proposed extension of an information collection that was previously approved. CBP is proposing that this information collection be extended with no change to the burden hours. This document is published to obtain comments from the public and affected agencies. This proposed information collection was previously published in the **Federal Register** (70 FR 10108) on March 2, 2005, allowing for a 60-day comment period. This notice allows for an additional 30 days for public comments. This process is conducted in accordance with 5 CFR 1320.10.

DATES: Written comments should be received on or before June 13, 2005.

ADDRESSES: Written comments and/or suggestions regarding the items contained in this notice, especially the estimated public burden and associated response time, should be directed to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Department of Homeland Security Desk Officer, Washington, DC 20503. Additionally comments may be submitted to OMB via facsimile to (202) 395-6974.

SUPPLEMENTARY INFORMATION: The Bureau of Customs and Border Protection (CBP) encourages the general public and affected Federal agencies to submit written comments and suggestions on proposed and/or continuing information collection requests pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13). Your comments should address one of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency/component, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agencies/components estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collections of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Bureau of Customs and Border Protection

Record of Decision for Customs and Border Protection's Office of Border Patrol Operation Rio Grande in the Office of Border Patrol McAllen Sector, Texas

AGENCY: Bureau of Customs and Border Protection, Department of Homeland Security.

ACTION: Record of decision general notice.

SUMMARY: This Record of Decision (ROD) document announces the final decision regarding the Environmental Impact Statement (EIS) for the Office of Border Patrol's Operation Rio Grande regarding potential environmental impacts resulting from Customs and Border Protection's (CBP), Office of Border Patrol (OBP), deployment of the lighting, roads, fences, mowing and boat ramp construction on the United States and Mexican border in the McAllen Sector of the OBP. The final EIS for Operation Rio Grande was made available for public review and was filed for public review with the U.S. Environmental Protection Agency, which published it in the **Federal Register** on June 17, 2004. This ROD will be incorporated into the final EIS after publication. The Operation Rio Grande has five project actions covered by this EIS: Lighting installation (permanent and portable), road improvement, fencing construction, boat ramp construction, and mowing. These actions are intended to reduce the influx of illegal entrants and contraband into the McAllen Sector, increase arrest of those not deterred; increase safety for operations by OBP agents; decrease response time; and decrease the risk from drowning as victims attempt to cross the river and/or irrigation canals. Since September 11, 2001, terrorist activities have also become a major focus of the OBP. This EIS was prompted by a lawsuit brought by the Defenders of Wildlife because of the potential impact that OBP activities may have on the habitat of two endangered species in the area, the ocelot (*Leopardus pardalis*) and jaguarundi (*Hepailurus yagouaroundi*) cats. The adjustments to lighting and other construction and mowing activities are incorporated into this ROD and were agreed to by the OBP and the Defenders of Wildlife in the settlement agreement for *Defenders of Wildlife v. Meissner*. The final EIS reflects this agreement and

states that no significant impacts occur to geology, soils, climate, or air quality. Short-term disturbances may occur to water resources. Aquatic systems could be impacted; however, the effects will decrease over time. The socioeconomic impacts would primarily be beneficial. Lastly, some immediate and direct impacts to wildlife from construction activities would occur. Smaller and less mobile wildlife such as amphibians, reptiles, and small mammals may be adversely impacted by heavy machinery. The increased noise and activity levels during constructions could temporarily disturb breeding behavior of some wildlife inhabiting the areas adjacent to the project; however, little permanent damage to the populations of such organisms would result. The proposed lighting improvements could potentially impact migration, dispersal, and foraging activities of nocturnal species. Two endangered species, the ocelot and jaguarundi, could potentially be impacted by the proposed project. These species are largely nocturnal, and it is expected they would avoid illuminated areas. Extensive coordination with the U.S. Fish and Wildlife Service was conducted to determine the position and direction of the proposed lighting structures to minimize the illumination to brush and other types of screening cover for these animals. Proposed mitigation measures such as road closures and habitat construction would increase the amount of habitat for these species. Reducing illegal immigrant traffic in the McAllen Sector would further reduce impacts to the habitat. Some, as yet, unidentified cultural resource sites may be impacted but mitigation will be provided through an initial assessment of the site, its anticipated severity, and proposals for the appropriate mitigation will be coordinated with the State Historic Preservation Officer.
