

Particulars Sheet that indicates no change in shareholding after the name change; (6) a pre-name change advertising flyer that shows The Pas Lumber Company employing the brand name "Winton" for its products; (7) samples of letters to customers advising them that there has been a name change; (8) pre- and post-name change organizational management charts; (9) an insurance appraisal report covering the company's assets dated five days prior to the name change; and (10) vendor and customer lists for the pre- and post-name change period.

Based on the information submitted by Winton Global, we preliminarily find that Winton Global is the successor-in-interest to The Pas. Based on the evidence reviewed, we find that Winton Global operates as the same business entity as The Pas and that the company's senior management, production facilities, supplier relationships, and customers have not changed. Thus, we preliminarily find that Winton Global should receive the same antidumping duty cash-deposit rate (*i.e.*, 1.83 percent) with respect to the subject merchandise as The Pas, its predecessor company.

However, because cash deposits are only estimates of the amount of antidumping duties that will be due, changes in cash deposit rates are not made retroactive. If Winton Global believes that the deposits paid exceed the actual amount of dumping, it is entitled to request an administrative review during the anniversary month of the publication of the order of those entries to determine the proper assessment rate and receive a refund of any excess deposits. *See Certain Hot-Rolled Lead and Bismuth Carbon Steel Products From the United Kingdom: Final Results of Changed-Circumstances Antidumping and Countervailing Duty Administrative Reviews*, 64 FR 66880 (November 30, 1999). As a result, if these preliminary results are adopted in our final results of this changed circumstances review, we will instruct the Customs Service to suspend shipments of subject merchandise made by Winton Global at The Pas's cash deposit rate (*i.e.*, 1.83 percent). Until that time, the cash deposit rate assigned to Winton Global's entries is the rate in effect at the time of entry (*i.e.*, the "all others" rate).

Public Comment

Any interested party may request a hearing within 20 days of publication of this notice. *See* 19 CFR 351.310(c). Any hearing, if requested, will be held 44 days after the date of publication of this notice, or the first working day

thereafter. Interested parties may submit case briefs and/or written comments not later than 20 days after the date of publication of this notice. Rebuttal briefs and rebuttals to written comments, which must be limited to issues raised in such briefs or comments, may be filed not later than 27 days after the date of publication of this notice. Parties who submit arguments are requested to submit with the argument (1) a statement of the issue, (2) a brief summary of the argument, and (3) a table of authorities.

Consistent with section 351.216(e) of the Department's regulations, we will issue the final results of this changed circumstances review no later than 270 days after the date on which this review was initiated, or within 45 days if all parties agree to our preliminary finding. We are issuing and publishing this finding and notice in accordance with sections 751(b)(1) and 777(i)(1) of the Act and section 351.216 of the Department's regulations.

Dated: May 9, 2005.

Joseph Spetrini,

Acting Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 05110A]

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council's (MAFMC) Atlantic Mackerel, Squid, and Butterfish Monitoring Committee will hold a public meeting.

DATES: The meeting will be held Thursday, June 2, 2005, at 9 a.m.

ADDRESSES: This meeting will be held at the Mid-Atlantic Council Office, Room 2115 Federal Building, 300 South New Street, Dover, DE 19904 telephone: (302) 674-2331.

Council address: Mid-Atlantic Fishery Management Council, 300 S. New Street, Room 2115, Dover, DE 19904.

FOR FURTHER INFORMATION CONTACT: Daniel T. Furlong, Executive Director, Mid-Atlantic Fishery Management

Council; telephone 302-674-2331, ext. 19.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to develop quota and management measure recommendations for the Atlantic mackerel, squid and butterfish fisheries for the 2006 fishing year. Committee action will be restricted to those issues specifically listed in this notice.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kathy Collins (302-674-2331 ext: 10) at the Mid-Atlantic Council Office at least 5 days prior to the meeting date.

Dated: May 11, 2005.

Emily Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

North Pacific Fishery Management Council; Notice of Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of meetings of the North Pacific Fishery Management Council Ecosystem Committee.

SUMMARY: The North Pacific Fishery Management Council (Council) Ecosystem Committee will meet by in Girdwood, Alaska, Ballroom C.

DATES: The meeting will be held June 2, 2005, from 1 pm to 5 pm.

ADDRESSES: North Pacific Fishery Management Council, Anchorage, Alaska.

Council address: North Pacific Fishery Management Council, 605 W. 4th Ave., Suite 306, Anchorage, AK 99501-2252.

FOR FURTHER INFORMATION CONTACT: Chris Oliver, Council staff, Phone: 907-271-2809.

SUPPLEMENTARY INFORMATION: The Committee's discussions may include reviewing the Aleutian Island Area-specific management discussion paper. The paper discussing the Council's role in an Ecosystem approach to management in Alaska, and updates on NOAA Fisheries ecosystem initiatives.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Gail Bendixen at 907-271-2809 at least 7 working days prior to the meeting date.

May 11, 2005.

Emily Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 051005A]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator) has made a preliminary determination that the subject Exempted Fishing Permit (EFP) application contains all the required information and warrants further consideration. The Assistant Regional Administrator has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the Northeast (NE) Multispecies Fishery Management Plan (FMP). However, further review and consultation may be necessary before a final determination is made to issue the EFP. Therefore, the Assistant Regional Administrator proposes to recommend that an EFP be issued that would allow three commercial fishing vessels to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. The EFP would allow for exemptions from the FMP as follows: The Gulf of Maine (GOM) Rolling Closure Areas II and III.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before May 31, 2005.

ADDRESSES: Written comments should be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on the Manomet Rigid Mesh EFP Proposal." Comments may also be sent via fax to (978) 281-9135 or via e-mail to da5-85@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Karen Tasker, Fishery Management Specialist, phone (978) 281-9273.

SUPPLEMENTARY INFORMATION: Manomet Center for Conservation Sciences submitted an application for an EFP on March 16, 2005. The primary goal of the research is to test the effectiveness of inserting a rigid mesh panel between the extension and the codend of a trawl net to reduce bycatch while targeting yellowtail flounder, winter flounder, summer flounder, American plaice, and cod in inshore GOM waters.

The proposed rigid mesh panel would be 6.56 ft (2 m) in length and would be constructed of elongate meshes 2.36 inches (60 mm) wide and 7.87 inches (200 mm) long. This panel would be inserted between the extension and the codend of the net and would be the same diameter as the net. This project is proposed to occur in the Western GOM, excluding the Western GOM Closure Area but including GOM Rolling Closure Areas II and III. The project would take place over 22 days from May 2005, to July 15, 2005, in two areas in the GOM waters, excluding the Western GOM Closure Area, as follows: (1) The area from 43°10' N lat. to the Maine shoreline, and from 69°30' W long. to the Maine shoreline; and (2) the area from 42°00' N lat. to 42°30' N lat., and from 70°00' W long. to the Massachusetts shoreline (approximately 70°40' W long.). Researchers request an exemption from the regulations establishing these closures because of the high likelihood that the targeted species would be present in significant numbers during these times, which would enhance the effectiveness of the experiment. Researchers would film the interior and exterior of the net to verify proper construction and to document species' reactions to the net. Once the proper construction of the net has been verified, researchers would use the remainder of the trials to test the potential for bycatch reduction of the experimental panel by conducting alternating tows using the net with the experimental panel and a conventional codend, following an A-B-B-A pattern, comparing the catches between the two

codends. No more than 110 tows total for the three vessels combined would be performed during at-sea trials. Under the previously issued EFP, researchers were authorized to conduct similar research over 30 days of sea trials; however, they were able to conduct only 8 days of sea trials.

The researchers anticipate that a total of 4,917 lb (2,230.3 kg) of fish, including 1,320 lb (598.7 kg) of cod, 550 lb (249.5 kg) of yellowtail flounder, 550 lb (249.5 kg) of winter flounder, and 550 lb (249.5 kg) of American plaice would be harvested throughout the course of the study. Other species that are anticipated to be caught are species of skates, smooth and spiny dogfish, sculpins, sea ravens, and sea robins. All legal-sized fish, within the possession limits, would be sold, with the proceeds going toward defraying the cost of vessel chartering fees. There would be no retention of undersized fish aboard the vessels and there is no anticipated impact on marine mammals or endangered species.

The applicant may request minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research, and minimal enough so as not to change the scope or impact the initially approved EFP request.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 10, 2005.

Alan D. Risenhoover

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
