SUPPLEMENTARY INFORMATION:

Background

This rule corrects the final regulations published in the **Federal Register** on September 13, 2004 (69 FR 55061-55063) that amended the sugar marketing allotment regulations at 7

CFR 1435 with respect to the reassignment of processors' marketing allocations. In the final rule, the revision to section 1435.309 inadvertently removed paragraphs (c)(3) and (c)(4). These paragraphs are restored. The revision to section 1435.309(c) provided that if CCC determines a sugarcane processor will be unable to market its full allocation for the crop year in which an allotment is in effect, the deficit will be reassigned by June 1. This correction deletes the reference to June 1 in section 1435.309(c) and adds a new paragraph 1435.109(d) that clarifies that June 1 is the date by which the initial estimate of the deficit will be reassigned and that later reassignments will be made if CCC determines after June 1 that a sugarcane processor will be unable to market its full allocation for the crop year in which an allotment is in effect. These corrections are required for the proper administration of the program.

* * * * *

(3) If the deficit cannot be eliminated by paragraphs (c)(1) and (c)(2) of this section, be reassigned to CCC. CCC shall sell such quantity from inventory unless CCC determines such sales would have a significant effect on the sugar price.

(4) If any portion of the deficit remains after paragraphs (c)(1), (c)(2), and (c)(3) of this section have been implemented, be reassigned to imports.

(d) The initial estimate of the sugarcane deficit will be reassigned by June 1. CCC will conduct later reassignments if CCC determines, after June 1, that a sugarcane processor will be unable to market its full allocation.
