

Dated: May 13, 2005.

Clay Sell,

Deputy Secretary.

Department of Energy, Deputy Secretary

[Rate Order No. WAPA-123]

In the Matter of Western Area Power Administration Rate Schedule Revision for Parker-Davis Project Wholesale Firm Power Service Rate

Order Confirming and Approving Revision of the Parker-Davis Project Wholesale Firm Power Service Rate Schedule

This wholesale firm power service rate was established following section 302 of the Department of Energy (DOE) Organization Act (42 U.S.C. 7152). This Act transferred to and vested in the Secretary of Energy the power marketing functions of the Secretary of the Department of the Interior and the Bureau of Reclamation under the Reclamation Act of 1902 (ch. 1093, 32 Stat. 388), as amended and supplemented by subsequent laws, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)), and other Acts that specifically apply to the project system involved.

By Delegation Order No. 00-037.00 effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to the Administrator of the Western Area Power Administration (Western); (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Federal Energy Regulatory Commission.

Background

The existing rate methodology, Rate Order No. WAPA-75, was approved for 5 years. By subsequent rate orders, the rate was extended through September 30, 2006.

Discussion

This action is to revise the existing Parker-Davis Project (P-DP) Wholesale Firm Power Service Rate Schedule PD-F6 to include language pertinent to the Lower Colorado River Basin Development Fund surcharge, which Western is legislatively required to assess to P-DP power customers in the states of Arizona, California, and Nevada beginning June 1, 2005. Title I, section 102(c) of the Hoover Power Plant Act of 1984 specifies that

beginning June 1, 2005, and until the end of the repayment period for the Central Arizona Project, the Secretary of Energy shall provide for surplus revenues to the Lower Colorado River Basin Development Fund by including the equivalent of 4½ mills per kilowatthour in the rates set by the Secretary of Energy that are charged to Arizona purchasers and 2½ mills per kilowatthour in rates charged to California and Nevada purchasers of P-DP power.

On the Deputy Secretary of Energy's approval, Rate Order No. WAPA-123 will revise existing P-DP Wholesale Firm Power Service Rate Schedule PD-F6 to include the Lower Colorado River Development Surcharge beginning June 1, 2005.

Order

In view of the above and under the authority of the Hoover Power Plant Act of 1984, I hereby revise, effective June 1, 2005, the existing Rate Schedule PD-F6 for wholesale firm power service to include the Lower Colorado River Development Surcharge. The revised Rate Schedule PD-F6 shall remain in effect through September 30, 2006.

Dated: May 13, 2005.

Clay Sell,

Deputy Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[OECA-2004-0042; FRL-7916-8]

Agency Information Collection Activities; Submission for OMB Review and Approval; Comment Request; NESHAP for Coke Oven Batteries (Renewal); OMB Control Number 2060-0253; EPA ICR Number 1362.06

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act, this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on May 31, 2005. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the

nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before June 23, 2005.

ADDRESSES: Submit your comments, referencing docket ID number OECA-2004-0042, to (1) EPA online using EDOCKET (our preferred method), by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 2201T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

María Malavé, Compliance Assessment and Media Programs Division, Mail Code 2223A, Office of Compliance, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-7027; fax number: (202) 564-0050; e-mail address: malave.maria@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On September 14, 2004 (69 FR 55430) EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OECA-2004-0042, which is available for public viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center is: (202) 566-1752. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. When in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether

submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket.

Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NESHAP for Coke Oven Batteries (Renewal).

Abstract: The National Emissions Standards for Coke Oven Batteries were proposed on December 4, 1992, and promulgated on October 27, 1993. These standards apply to all coke oven batteries, whether existing, new, reconstructed, rebuilt or restarted. It also applies to all batteries using the conventional by-product recovery, the nonrecovery process, or any new recovery process. Under this rule, all existing batteries must choose a compliance track. Two compliance approaches are available under the rule: the "MACT (Maximum Achievable Control Technology) track," and the "LAER (Lowest Achievable Emission Rate) extension track," and straddling both tracks (until January 1, 1998). Applicability dates vary depending on the emission limitation the affected facility is subject to. This information is being collected to assure compliance with 40 CFR part 63, subpart L.

Owners or operators of coke oven batteries, whether existing, new, reconstructed, rebuilt or restarted, are required to comply with monitoring, recordkeeping and reporting requirements. Owners or operators of the affected facilities described must make one-time-only notifications to elect a compliance track and to certify initial compliance. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Monitoring

requirements specific to coke oven batteries provide information on the operation of the emissions control device and compliance with the visible emissions standard. Semiannual reports of compliance certifications are required. These notifications, reports, and records will be used by EPA and states to: (1) Identify batteries subject to the standards; (2) ensure that MACT and LAER are properly applied; and (3) ensure that daily monitoring and work practice requirements are implemented as required.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,754 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Plants with coke oven batteries using the conventional by-product recovery, the nonrecovery process, or any new recovery process.

Estimated Number of Respondents: 19.

Frequency of Response: Initial, semiannual, and on occasion.

Estimated Total Annual Hour Burden: 78,938 hours.

Estimated Annual Costs: \$6,302,094, which includes \$0 in Operations and Maintenance costs, \$0 in Capital Expense, and \$6,302,094 in Respondent Labor costs.

Changes in the Estimates: There is a decrease of 25,721 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in burden from the most recently approved ICR is due

to a decrease in the number of plants with coke oven batteries. However, there was an estimated cost increase due to an increase in labor rates. There were no capital/startup and operation and maintenance costs associated with continuous emission monitoring for the renewal of the ICR, therefore, there is no change in this burden category.

Dated: May 10, 2005.

Oscar Morales,

Director, Collection Strategies Division.

Federal Advisory Committee to Examine Detection and Quantitation Approaches in Clean Water Act Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; FACA Committee Meeting Announcement.

SUMMARY: As required by the Federal Advisory Committee Act, Public Law 92-463, the Environmental Protection Agency, Office of Water, gives notice of the first meeting of the Federal Advisory Committee on Detection and Quantitation Approaches and Uses in Clean Water Act Programs.

DATES: The meeting will be held on Tuesday, June 21, 2005, from 9 a.m. to 5 p.m. The meeting will continue on Wednesday, June 22, 2005, from 8 a.m. to 4 p.m. All times are Eastern Daylight Time.

ADDRESSES: The meeting will be held at the Hilton Old Town, 1767 King Street, Alexandria, Virginia 22314, across from the King Street Metro stop. Members of the public may attend this meeting in person or via teleconference. The public may obtain the call-in number and access code for the teleconference lines from Marion Kelly, whose contact information is listed under the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Document Availability: Any member of the public interested in receiving a draft agenda or making a presentation at the meeting may contact Richard Reding, Designated Federal Officer, whose contact information is listed under the **FOR FURTHER INFORMATION CONTACT** section of this notice. In general, each individual making an oral presentation will be limited to a total of three minutes. Requests for the draft agenda or making an oral presentation
