BILLING CODE 4310-GJ-P**DEPARTMENT OF THE INTERIOR****Minerals Management Service****Agency Information Collection Activities: Proposed Collection; Comment Request****AGENCY:** Minerals Management Service (MMS), Interior.**ACTION:** Notice of extension of an information collection (1010-0072).**SUMMARY:** To comply with the Paperwork Reduction Act of 1995 (PRA), MMS is inviting comments on a collection of information that we will

submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements in the regulations under 30 CFR 280, "Prospecting for Minerals Other than Oil, Gas, and Sulphur on the Outer Continental Shelf."

DATE: Submit written comments by July 25, 2005.**ADDRESSES:** You may submit comments by any of the following methods listed below. Please use the Information Collection Number 1010-0072 as an identifier in your message.

- Public Connect on-line commenting system, <https://occonnect.mms.gov>. Follow the instructions on the Web site for submitting comments.

- Email MMS at rules.comments@mms.gov. Identify with Information Collection Number 1010-0072 in the subject line.

- Fax: 703-787-1093. Identify with Information Collection Number 1010-0072.

- Mail or hand-carry comments to the Department of the Interior; Minerals Management Service; Attention: Rules Process Team (RPT); 381 Elden Street, MS-4024; Herndon, Virginia 20170-4817. Please reference "Information Collection 1010-0072" in your comments.

FOR FURTHER INFORMATION CONTACT: Cheryl Blundon, Rules Processing Team at (703) 787-1600. You may also contact Cheryl Blundon to obtain a copy, at no cost, of the regulation and the forms that require the subject collection of information.**SUPPLEMENTARY INFORMATION:***Title:* 30 CFR Part 280, Prospecting for Minerals Other than Oil, Gas, and Sulphur on the Outer Continental Shelf.*OMB Control Number:* 1010-0072.*Forms:* MMS-134, MMS-135, and MMS-136.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Section 1337(k) of the OCS Lands Act authorizes the Secretary " * * * to grant to the qualified persons offering the highest cash bonuses on a basis of competitive bidding leases of any mineral other than oil, gas, and sulphur in any area of the outer Continental Shelf not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the

time of offering the area for lease." An amendment to the OCS Lands Act (Pub. L. 103-426) authorizes the Secretary to negotiate agreements (in lieu of the previously required competitive bidding process) for the use of OCS sand, gravel, and shell resources for certain specified types of public uses. The specified uses will support construction of governmental projects for beach nourishment, shore protection, and wetlands enhancement; or any project authorized by the Federal Government.

Section 1340 states that " * * * any person authorized by the Secretary may conduct geological and geophysical [G&G] explorations in the outer Continental Shelf, which do not interfere with or endanger actual operations under any lease maintained or granted pursuant to this Act, and which are not unduly harmful to aquatic life in such area." The section further requires that, permits to conduct such activities may only be issued if it is determined that the applicant is qualified; the activities are not polluting, hazardous, or unsafe; they do not interfere with other users of the area; and they do not disturb a site, structure, or object of historical or archaeological significance. Respondents are required to submit form MMS-134 to provide the information necessary to evaluate their qualifications. Upon approval, respondents are issued a permit on either form MMS-135 or MMS-136 depending on whether they are prospecting or conducting scientific research for "geological" or "geophysical" mineral resources.

Section 1352 further requires that certain costs be reimbursed to the parties submitting required G&G information and data. Under the Act, permittees are to be reimbursed for the costs of reproducing any G&G data required to be submitted. Permittees are to be reimbursed also for the reasonable cost of processing geophysical information required to be submitted when processing is in a form or manner required by the Director and is not used in the normal conduct of the business of the permittee.

MMS OCS Regions collect information required under part 280 to ensure there is no environmental degradation, personal harm or unsafe operations and conditions, damage to historical or archaeological sites, or interference with other uses; to analyze and evaluate preliminary or planned drilling activities; to monitor progress and activities in the OCS; to acquire G&G data and information collected under a Federal permit offshore; and to
