We do not intend to make a final decision on the proposed revision of CPG 7132b.11 until we complete further study of the expiration dating issue to determine the most scientifically sound approach. We invite interested persons to submit data establishing appropriate expiration dating for such drug products.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the agency's current thinking on expiration dating on nonsterile unit-dose repackaged drug products. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the current requirements of the applicable statutes and regulations.

Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy.
