Needs and Uses: On September 9, 2004, the Commission adopted a Report And Order (R&O) and Further Notice of Proposed Rule Making (FNPRM), In The Matter of Children's Television Obligations of Digital Television Broadcasters, FCC 04-221, MM Docket No. 00-167. 47 CFR Section 73.673 is amended to remove program identification requirements. New identification requirements are in Section 73.671. Section 73.673 now states that each commercial television broadcast station licensee shall provide information identifying programming specifically designed to educate and inform children to publishers of program guides. Such information shall include an indication of the age group for this the program is intended. 47 CFR Section 73.671 states that each commercial and noncommercial educational television broadcast station licensee has an obligation to serve, over the term of its license, the Educational and Informational (E/I) needs of children ("Core Programming") through both the licensee's overall programming and programming specifically designed to serve such needs. In order for a program to be identified as a core educational program, the E/I symbol must be displayed throughout the program. These changes are intended to provide greater clarity about broadcasters' obligations under the Children's Television Act (CTA) of 1990 which specified the airing of programs "specifically designed" to serve the educational and informational needs of children and to improve public access to information about the availability of these programs. These requirements will provide better information to the public about the shows broadcasters air to satisfy their obligation to provide educational and informational programming under the Children's Television Act of 1990.
