SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC-520 "Application for Authority to Hold Interlocking Directorate Positions" (OMB No. 1902-0083) is used by the Commission to implement the statutory provisions of Section 305(b) of the Federal Power Act (FPA) (16 U.S.C. 825d). Section 305(b) makes the holding of certain defined interlocking corporate positions unlawful unless the Commission has authorized the interlocks to the held and, requires the applicant to show in a form and manner as prescribed by the Commission, that neither public nor private interests will be adversely affected by the holding of the position. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 45.

Under part 45, each person that desires to hold interlocking positions must submit an application to the Commission for authorization, or if qualified, comply with the requirements for automatic authorization. The interlocking positions application requirements are set forth in section 45.8; automatic authorization requirements are set forth in section 45.9. In addition, a person already holding an existing authorized interlocking position, must apply for separate authorization under section 45.4(a) when appointed to a new position within the same company. The information required under part 45 generally identifies the applicant, describes the various interlocking positions the applicant seeks authorization to hold, provides information on the applicant's financial interests, other officers and directors of the firms involved, and the nature of the business relationships among the firms.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1) × (2) × (3)
